J. Carl Nelson, manager of the Newberg Manufacturing Company says the demand for sash and doors and other products of the plant is all they could ask for and the force of men has been increased rather than diminished. It is not anticipated however that it will be necessary to operate the pumping plant for more than three to four months during the Summer.

The Orpheus Glee Club, composed of twenty-five young men and led by Prof. Hull, with Mrs. Hull as accompanist, gave a good evening's entertainment on Friday night of last week before a fairly good sized audience. Mrs. R. M. McKern and the Misses Corinne Bartholomew, Dorothy Hull and Ruth Romig assisted in the vocal work, and Prof. Hawkins added much to the merriment of the occasion by giving several humorous readings. Newberg need not go away from home for entertainers, with so much home talent showing up.

One of Newberg's staid bachelors, who in times past has built two or three cottages on his own account, was caught in the act of loading household furniture into a wagon from a First street furniture store on Monday, and at first thought it was easily surmised that some fair damsel had taken undue advantage of Leap Year privileges and had made a get-away with him, but on investigation it was found that said bachelor was simply lending a hand in assisting another, and a mighty good news item was thus put to an untimely end at a time when the scarcity of real live stuff was quite depressing.

August Schaad, who went to the homeland in Germany in the Fall to visit his old mother, is evidently having the same experiences of others who have returned to the scenes of boyhood days after long years of absence, since he writes his brother, Gottlieb, that he finds himself a stranger to all but a few of the elderly people and the surroundings do not appear as he thought they would. He arrived at the old home on Sunday to find his mother absent, she having gone to church, and it is easy to imagine something of her surprise to find on her arrival home, a son whom she had not seen for nearly twenty years, since she was not expecting him. The Graphic is keeping Mr. Schaad posted on home affairs in his absence and a letter from him, telling of his experiences we would gladly publish, provided he will give it to us in United States.

W. S. Allan, of the fruit growing district of the Red Hills above Dundee, was favored above most of his neighbors the past season in having a good apple crop, his Spitzenberg trees yielding better than 900 boxes and other varieties adding enough to make a total of more than 1600 boxes. He has been shipping to Portland lately, and besides, has marketed several loads of the smaller sizes in Newberg. His Spitzenbergs are very highly colored and for flavor no country on earth can excel them. On Tuesday he left a sample box at E. C. Baird's store that were very attractive and were the subject of much favorable comment. Mr. Allan is certainly doing his part in restoring to the Willamette valley the fame this section once had as the land of big red apples.

TEACHERS MEET IN AMITY

Sixty enthusiastic teachers assembled in Amity, January 20, at 10:15 a. m., and after opening exercises and an address by Prof. Larsell, of McMinnville, upon the important subject of sanitation, they took up the department work.

Prof. Wilson, of Minnville, discussed "How to Study" in a helpful manner, before the High School division, Miss Vance, of Amity and Prof. Jory, of Dundee, interested the intermediate department in reading and arithmetic, while Miss Young, of Newberg, taught "The Busy Work That Educates" to the Primary teachers.

The noon hour was spent in social intercourse while discussing the bountiful dinner prepared by the good people, of Amity, and vicinity, after which they again met in general assembly.

Prof. Buchanan, of McMinnville, gave some needed hints on Manual Training and Prof. Larsell gave another interesting address.

A vote of thanks was extended to the people and to the teachers and pupils of the school for the splendid manner in which the teachers were received, and for their united efforts to make the meeting a success. An evening program furnished by McMinnville college was listened to attentively by a crowded house, and every one present seemed to feel that the day had been pleasantly and profitably spent.

The next meeting will be in Sheridan, February 24, and it is our purpose to have an evening program by Pacific College. We have not as yet made such arrangements, but hope to do so soon.

County Sup't.

FOOT DANGER!

There are two dangerous kinds of stockings — one that is patched and darned until it becomes a torture to walk on; the other that is made of yarn so tough and coarse that one might as well be walking on wire.

The public is no longer content to buy sox and stockings that will merely wear well. Guaranteed hosiery must be comfortable and stylish also.
