

**All Furniture Lines Complete**

**Make Your Selections Now**  
 And let us hold your purchase for you free of charge until you order it delivered. A small payment down will secure any article in the house, and by purchasing now you will avoid the annoyance of holiday shopping. Our lines of Furniture, Carpets, Rugs, Carpet Sweepers, etc., were never so complete, attractive and pretty as they are at this moment and you would be hard to please if you could not find just what you wanted in our stock. The prices are, if possible, more attractive—they are so surprisingly low.

**Gumption on the Farm.**

Don't "flare up" like a badly trimmed lamp. The man who keeps cool always has the better of the argument.

Many men when in deep trouble fail to find what may be the best way out—consulting the wife. She is your partner, for both profits and losses, and her advice is always worth considering.

When a stormy day comes, spend a few hours looking over the garden seeds for the coming season. See that they are not being affected by dampness nor by excessive heat. The mice may be helping themselves.

One of the biggest mistakes farmers make is in scrimping themselves on the amount of grass-seed sown to the acre. Of late years seed has been high, and the tendency has been to sow less than was needed to bring a good crop. Better save somewhere else.

The farmer has one thing in his favor—what he knows he knows. There is no chance for a bluff in tilling the soil. Everything shows right up for just what it is worth. If he is a success he can not hide the fact, and if he is a failure the neighbors are quick to know the particulars.

Before planting any large quantity of small grain, grass or clover seed, send a sample to your state experiment station for examination. The seeds of many noxious plants are to be found in impure and unreliable seeds. It is far easier to do this than to eradicate some pestiferous weed that obtains a firm foothold on your farm.

The party who appeals to the courts for redress is not always in the right. He is prejudiced in his own favor; and, besides, his temper will not allow him to reason as he should. The decision of the court for the defendant, with costs, does not in the least alter his own opinion, then or thereafter. He feels that he has been wronged. Going to law for fancied wrongs, and expecting there to find redress, is an expensive luxury. Sue a mouse and catch a rat.

Thousands of dollars are wasted in commercial fertilizer every year, not because the fertilizer is not all right, but because we do not know whether the kind we use is the kind our land needs. It is a great study and one that we must make for ourselves. Make some simple experiments this year. Put in a strip with the fertilizer you have been in the habit of using, and just beside it another without it. This will be worth a great deal more to you than the opinion of some interested agent.
