CASH PAID FOR EGGS**E. C. BAIRD****TWIN STATE CONVENTIONS**

The Oregon State Sunday School Convention will be held in sections this year, the first at McMinnville, April 22-24, and the second at Pendleton, April 25 and 26.

The list of speakers is a long one, including Mrs. Mary Foster Bryner, of Chicago; E. C. Knapp, of Spokane; Geo. T. Pratt, Seattle, and many other noted Sunday School workers.

PERTINENT SUGGESTIONS

To the Hon. Judge and Commissioners of Yamhill County.

Gentlemen: Have you noticed in passing through the public avenues of the county that there are hundreds of miles of fencing which is so very much dilapidated that it would not be stock proof were it not for the rank growth of brambles on one or both sides of it? Many miles of this fencing belong to orchardists and others who are not stock raisers and who would be glad to pull it down and clean up the fence line were it not for having to replace it to protect themselves from out-running stock. To grant autos a speed of twenty miles per hour and physicians occasionally having to take unlimited speed it would seem that stock grazing on public highways should become unlawful, and it is thought, as you, the county judge and commissioners

have the power to keep public roads free from hindrances that you also have the right to order all stock kept from free range in public avenues of the county. If you are empowered with such authority and would exercise it we who are not stock raisers, could turn our old fences into our wood houses, clean out our fence lines, park our front ways and look neat and clean. This would be a great saving of timber and also of expense and would increase a desire for homes. It would give Oregon a neatness in village, town and country that cannot be obtained while stock is permitted to roam at large. Now, if such ruling transcends your authority will you please advise a vote on the subject at our next general election? Justice itself ought to have settled this matter long ago in this state. Roads were deeded to the county for purposes of travel and not for stock grazing. Every agriculturist and horticulturist should have the free use of all his land. Taxing him to build a stock fence is an outrage because he does not need it and, again it causes him the loss of the use of a part of his land. The turning ground in front of a fence line is quite an item, aggregating on many a farm to several acres which might be cultivated if fencing were put out of the way. Why should agriculturists and horticulturists be put to the expense of erecting stock fences which are not needed and be deprived of the use of acres of land as a favor to stock raisers? Let us have fair play. Restrict stock raisers to the use of their own premises, then agriculturists and horticulturists can remove useless fencing, break up squirrel harbors, clean out fence lines and thus make their homes look neat and inviting.

WINSLOW FOR DISTRICT ATTORNEY

**Has Had Practical Experience
And Is Well Qualified.**

W. G. Winslow, candidate for District Attorney, is making his campaign solely upon the ground of efficiency and experience.

He has been directly associated with John H. McNary, our present district attorney, for four years, acting as his deputy for Marion County during that time. Has also represented Mr. McNary as acting district attorney in every county in the district, having full charge of the work, and is thoroughly acquainted throughout the whole of the district with the work of the office to which he aspires. If nominated and elected he promises to give us an honest economic and efficient administration. If you believe in promoting one of experience he is asking for your support.

paid adv.

To the Taxpayers of Yamhill County.

We have the question before us of electing a County Commissioner at the coming election. I

feel that a few words would not come amiss. Having served as County Commissioner for a term of years in North Dakota before coming to Oregon, I can readily understand that a man who has had years of experience can better serve the best interests of the county than a new man at the wheel.

The office of County Commissioner is a much more important office than is generally supposed. The whole interests of the county are at stake, and a man can save the county many thousands of dollars if he is capable and takes the interest he should.

Samuel Cummins has proved himself a valuable servant to Yamhill county. He is a man who has made a success in his business pursuits, and is quite able to serve the county now after the years of experience he has had, and I believe by re-electing him the voters of Yamhill county will be securing the services of a competent man and a good servant.

Respectfully,
J. D. Gordon.

For Home Builders.

I recently laid out a small Addition adjoining the College campus on the South, which I have named "Woodward Place." The Addition is close in and yet a little off of the main traveled streets and out of the Summer dust. The drainage is excellent. Streets will be graded and graveled, cement walks laid and drainage for cellars furnished without cost to those who purchase lots.

Lots are 56x114 feet and are sold with building restrictions in the deeds.

If you are looking for a desirable location for a home, your inspection is invited. Only six lots remaining for sale.
