CHEHALEM CENTER

There will be no services at the church next Sunday as most all the people wish to attend Yearly Meeting in Newberg.

Mr. and Mrs. Earl Paulsen have named their young son Gerald.

Ye scribe failed to chronicle a number of happenings which occurred lately on account of numerous cares and duties which demanded attention and so will make some mention of at this time.

Mr. and Mrs. H. C. Paulsen and family have retired from the farm and have purchased a nice home in Newberg. They will be sadly missed from Chehalem Center church work and society. Earl Paulsen and wife will remain on the farm.

Mr. Sherwood and family have sold out and moved to Portland. Another good family departed from the community. Robert Hodges took a load of goods overland to Portland for Mr. Sherwood Saturday.

On Monday evening of last week some friends of Merrill Morris, of Newberg, gathered at his home on Wygooski street and gave him a pleasant surprise. However Mrs. Morris' was expecting them and after music and games the served fruit salad, cake, candy and lemonade. All enjoyed the evening very much. Those present were: Misses Mildred Wills, Nancy Atkinson, Laura, Florence and Bessie Hockett, Cora Venable, Florence McGuire, Hazel Miller, Viola Bradley and Edna Everest; Mesdames Mary Hodges, Lizzie Everest and Mary Palmer Johnson; Messrs. S. W. Atkinson, Robert and George Hodges, George McGuire, Lineas Christenson, Frank and Carlos Johnson, R. W. Everest and Master Elton Everest. On the following Tuesday another surprise awaited Mr. Morris and the Misses Laura, Florence and Bessie Hockett at the home of Frank Johnson. Quite a number were present and all had a very pleasant time. Mr. Morris went to California Wednesday where he is now enjoying the beautiful sights in and about the "Golden Gate."

On the evening of May 31, the county W. C. T. U. Supt. of Scientific Instruction, Miss Mildred Wills, gave a good program at the schoolhouse. At this time the prize essays of the county contest were read, written on "What is the harm of a glass of beer, wine or cider." They portrayed the evil effects of the use of these as a beverage, all of which were good. Miss Hazel Miller received the prize, Miss Gladys Hart, of Dayton, and David Marr, of Dundee, being the other contestants.

On Tuesday evening, June 11, a farewell reception was given at the home of Mr. and Mrs. Childers in honor of Rev. T. E. Hockett and family as they start soon for Kansas. They leave many friends here who lament their departure from our midst and wish them a safe journey back to the Sunflower state.

Mr. Oakly finds it pays to advertize, as people have been flocking out there, a hundred people a day, men, women and children in the early part of the week, glad to get out and enjoy the beautiful view from Chehalem Center Heights, and pick the luscious ripe strawberries.

Mr. and Mrs. B. L. Kirkebo and family and daughter, Mrs. Johnson, all of Tacoma, are visiting at the home of Mr. and Mrs. K. L. Tangen. Mr. Kirkebo being a brother of Mrs. Tangen.

C. G. Jacobson went to Portland to attend to the Rose Festival.

MAKING A SOIL MULCH

After I have begun breaking, before I go to dinner at noon, I hitch to a drag or harrow and destroy every clod of dirt I have turned up during the morning. The next day it could not be pulverized as well, and if you want to get the best results, you must do the right thing at the right time. So I prepare the soil as I go, and drag or harrow that which I have turned up in the afternoon before I go home. This puts on the surface a soil mulch, which is intended to protect the moisture in the earth, and it does it.

If you have your soil prepared as has been suggested, and there comes an inch of rainfall, the moisture will go ten to fifteen times deeper than it would in unprepared soil. And it will take the wind and sun ten to fifteen times as long to take it out.

There are but two ways for moisture to come out of the earth. One is through plant life and the other by evaporation. If we allow a hard crust to form it will cause this evaporation; but, when we place this soil mulch on the earth, it forms a protection to the moisture beneath. When a rain comes you want to go over it and remulch the soil, and thus set the trap for the next. As soon as you catch one rain, set your trap for the next. Destroy what would form a crust and allow the escape of the moisture already in the ground. Let me illustrate: Put a clod of dirt on your hand and then put a coal of fire on top of it. It will soon burn you. Now pulverize a clod of earth, but the coal of fire on top of it, and you can carry it all over the city. The hard clod is conductor of heat; when you pulverize it, it is a non-conductor, and will protect your hand from the fire above. —J. W. Neill, Superintendent of Farmers' Institute, Texas.

GOOD FOR THE APPETITE

To people with jaded appetites the automobile is one of the best appetizers in the world. The swift motion through the country in the fresh air quickens the pulse, clears the mind, and sooner or later gives us a ravenous appetite.

"It does not take owners long to see the scarcity of good road-houses or hotels on their tours," says L. E. Baughman of the Studebaker Corporation of America. One may go a long way without coming to either, and when one is hungry, this absence tends to discomfort.

I have often thought why motorists have not taken advantage of the many little conveniences for fitting up their automobiles with lunches. Take the small suit case made of either imitation leather or of rattan—very inexpensive—there is plenty of room for boxes that could contain sandwiches, eggs, cake, jam, etc., all the dainty little appetite satisfiers that would come in mighty handy. The thermos bottle could contain a hot or cold drink, whichever is desired. A plan like that with the suggested suit case would not go amiss when one is en route and hungry. And I believe it will be found just as handy as the expensive hamper.

NATURE'S FOOD

for horses and cattle is of course grass as it grows in meadow and on hill. Can't get it the year around in most places. Next best thing is sweet, clean hay, oats and corn. When you need grain of the right sort for keeping your livestock in fine fettle look for our sign and the good things for your dumb servants stored in our bins. Our prices, like our products, will suit the stock's master.

The Conservative Banker

in making loans must know to a certainty that his applicant or surity is responsible and worthy of credit.

Likewise, the prudent depositor should know the character and standing of the bank with which he deals.

The business reputation of our Directors and the experience and ability of our officers with a record of over twenty years of successful business is sufficient guarantee that the interests of every depositor will be carefully protected.

A REMARKABLE BOOK of Interest to Property Owners

After years of work and great expense the manufacturers of "Standard" plumbing fixtures have completed a book which should be seen by all property owners intending to remodel and especially by those who are going to build.

In this book are shown in great variety fixtures that would grace a mansion and others, less pretentious, but beautiful nevertheless, that are within the means of that great group of people—the wage earners of America.

This book is too expensive for general distribution but you can see a copy in our office.

For your own interest, see this book before planning your bathroom.

"The Best I Ever Used"

It Stands Hard, Rough Usage—Under Pacific Northwest Conditions.

ADRIANCE BUCKEYE MOWERS (NOT IN THE TRUST)

Followed our fathers across the plains a half century ago; cut virgin grasses of this Oregon country and built up their reputation for sturdy durability. Adriance Buckeye Mowers have been sold in the Pacific Northwest for 47 years. The new Adriance Buckeye sticks to the old fashioned idea of uprightness in building adding latest improvements.

Automatic Spring Draft operates only when needed. No tendency to lift cutter bar off ground when under unusual strain as when striking an obstacle. Saves hay, driver, team and machine. Used on Adriance Buckeye only.

Disengaging Pawls. The wheel pawls may be disengaged when on the road so that no gears are in operation. An exclusive Buckeye feature. There is a clutch too for starting and stopping the knife.

Ratchet Castings Separate from the wheels. If one becomes worn out or broken you don't have to replace the wheel as you do in others. Reduces your repair account.

Folded Cutter Bar. When on road the Buckeye Cutter Bar is folded over tongue. No other as securely folded. This feature may save an expensive accident.

Look for These Features. When you buy a mower look for the above features for no mower is as good without them. Besides being light in draft and long of life the Adriance Buckeye can be depended upon to cut any grass that any other mower will cut and then some.

We Carry a Complete Stock of All Repair Parts

Send Coupon for Adriance Catalog of complete line, including the famous Buckeye Mower. Sign the coupon and mail it today without fail.
