Scholls.

Mr. and Mrs. Tom Pearson are working at Hall Brothers' logging camp.

John Lynn, the painter, is doing some work for W. W. Jaquith. Tom Haynes, W. W. Jaquith, and J. W. Moore appraised the property of Nancy I. Pearson, deceased.

Hall Bros. are hauling cedar lumber to Hillsboro this week.

Frank Conover, our old merchant, is back at his stand again.

Mrs. Hill, of Vancouver, Washington, returned home Sunday by way of Springbrook after a month's stay with her daughter, Mrs. Baker, on "Nutcroft Farm."

R. H. Brooks is building a potato house at the Scholls ranch. Chas. Hitchcock is carpenter.

As to Lawyers

Speaker Champ Clark tells of a Missouri lawyer named Strange who became ill and feared he was about to die.

Calling his wife to him, Lawyer Strange said:

"Now, my dear, when I die, I would like you to put a little headstone at my grave and on it simply say, 'Here lies an honest lawyer.'"

The wife expressed surprise that her husband did not wish his name on the stone.

"That will not be necessary," he said. "Everyone who passes and sees the inscription will at once say, 'That's Strange.'"—McCall's Magazine.

Bells had their origin in China a great many centuries ago, and their first use was to dispel and clear the air of "evil spirits," also to break up and drive away storms. From China bells were eventually introduced to the countries of Europe. Old English records tell us how the tolling of bells kept the "spirits of darkness" from assailing people while in the act of worship, hence the connection of bells with churches. It was only at a comparatively late date that bells were used for calling the people to church. For ages they were designed solely for keeping the "devils" at a safe distance.—New York American.

The Shepherd's Crook.

Although most people have seen a shepherd's crook, many do not know the use of it. Some people think that all the shepherd carries it for is to use it as a walking stick when he tramps to and from the fold. But the crooked end itself serves a purpose. It enables a shepherd to catch refractory sheep. If a sheep shows signs of running away the crooked end has only to be placed round his leg, and he is a captive.—London Standard.

Voice of Experience.

"I can't understand why married couples ever have a disagreement," she said. "I don't see why these matters can't be so adjusted that there will be no friction. Now, my husband and I understand each other thoroughly."

"Indeed?" he replied. "How long have you been married?"

"Nearly three days."—Judge.
