The Warren Construction Co. has closed the paving plant for the season and will do nothing more on Meridian street until the weather settles in the spring. Wm. Stratton, who was for many years a resident of Newberg, came in from Fort Rock, Lake County, the first of the week and will probably remain during the winter. C. Colcord on Wynoski street. It is reported that the ever-present professional "dignity" was laid aside for the evening and that all present joined in the effort to drive dull care away. The guests were: President and Mrs. L. T. Pennington, Professor and Mrs. Russell Lewis, Professor and Mrs. Herbert York, Miss Eunice Lewis, Mrs. Eva H. Hull and Miss Dorothy Hull. Professor Hull and Professor Hawkins were unavoidably absent.

### HISTORY MAKERS.

#### Fifteen of the Most Decisive Battles of the World.

The fifteen decisive battles of the world from the fifth century before Christ to the beginning of the nineteenth century of the present era, as given by the historian, Creasy, are as follows:

The battle of Marathon, in which the Persian hosts were defeated by the Greeks under Miltiades, B. C. 490.

The defeat of the Athenians at Syracuse, B. C. 413.

The battle of Arbela, in which the Persians under Darius were defeated by the invading Greeks under Alexander the Great, B. C. 331.

The battle of Metaurus, in which the Carthaginian forces under Hasdrubal were overthrown by the Romans, B. C. 207.

Victory of the German tribes under Arminius over the Roman legions under Varus, A. D. 9. (The battle was fought in what is now the province of Lippe, Germany, near the source of the river Ems.)

Battle of Chalens, where Attila the Terrible, king of the Huns, was repulsed by the Romans under Actius, A. D. 451.

Battle of Tours, in which the Saracen Turks invading western Europe were utterly overthrown by the Franks under Charles Mortel, A. D. 732.

Battle of Hastings, by which William the Conqueror became the ruler of England, Oct. 14, 1066.

Victory of the French under Joan of Arc over the English at Orleans, April 29, 1429.

Defeat of the Spanish armada by the English naval force, July 29 and 30, 1588.

Battle of Blenheim, in which the French and Bavarians were defeated by the allied armies of Great Britain and Holland under the Duke of Marlborough, Aug. 2, 1701.

Battle of Pultowa, the Swedish army under Charles XII. defeated the Russians under Peter the Great, July 8, 1709.

Victory of the American army under General Gates over the British under General Burgoyne, at Saratoga, Oct. 17, 1777.

Battle of Valmy, where the allied armies of Prussia and Austria were defeated by the French under Marshal Kellerman, Sept. 20, 1792.

Battle of Waterloo, the allied forces of the British and Prussians defeated the French under Napoleon, the final overthrow of the great commander, June 18, 1815.

### Wonderful Monastery.

At Solovetsk, in the Russian government of Archangel, is the most remarkable monastery in the world. The monastery of Solovetsk is inclosed on every side by a wall of granite boulders which measures nearly a mile in circumference. The monastery itself is very strongly fortified, being supported by round and square towers about thirty feet in height, with walls twenty feet in thickness. The monastery consists in reality of six churches, which are completely filled with statues of all kinds and precious stones. Upon the walls and the towers surrounding these churches are mounted huge guns, which in the time of the Crimean war were directed against the British White sea squadron.

### Etiquette.

"Etiquette" is a French word which originally meant a label indicating the price or quality, the English "ticket," and in old French was usually specialized to mean a soldier's billet. The phrase "that's the ticket" shows the change to the present meaning of manners according to code. Burke solemnly explained that "etiquette had its original application to those ceremonies and formal observances practiced at courts. The term came afterward to signify certain formal methods used in the transactions between sovereign states."

### The Turks and the Crescent.

When Philip of Macedonia approached by night with his troops to scale the walls of Byzantium the moon, then new or in crescent, shone out and discovered his design to the besieged, who repulsed him. The crescent was after that adopted as the favorite badge of the city. When the Turks took Byzantium they found the crescent in every public place and, believing it to possess some magical power, adopted it themselves.

### Whipped Cream.

"Look here," shouted the irate neighbor over the fence, "your youngest son has been stoning my cats and pilfering my apples! He is a scamp!" "Don't talk that way about my son," blurted the fond parent. "Why, he is considered the cream of our family." "The cream, eh? Well, I'd like to see him whipped."—Chicago News.
