Kruttschnitt Says S. P. Will Treat U. P. as Eastern Road

San Francisco.—Julius Kruttschnitt of the board of directors of the Southern Pacific company, succeeding Robert Lovett, who resigned to take the chairmanship of the Union Pacific board, has written a letter to executives of the Southern Pacific in this city advising that on February 1 the Southern Pacific will operate independently of the Union Pacific in every way.

On that date, Mr. Kruttschnitt says, the complete divorce of the Southern from the Union Pacific will be established. In all such matters as routing or shipping contracts, the Southern Pacific will be expected to consider the Union Pacific, if an eastern line must be considered therein, on an equality with such roads as the Denver & Rio Grande. Preferential clauses in contracts or agreements favoring the Union Pacific will be under the Southern Pacific ban, it is understood.

Mackinaw Strikes Going Out of Port Los Angeles.—The steel freight steamer Mackinaw, en route from Balboa, Panama, to San Francisco, via Los Angeles, struck the breakwater at the entrance to San Pedro harbor in a heavy fog and came into the harbor after several of the crew had been taken in the boats in the belief that the vessel was sinking.

SICKLES' ARREST ORDERED

Accusation Comes as Climax of Distinguished Career.

Albany, N. Y.—Upon application of the state authorities, the supreme court issued an order for the arrest of General Daniel Sickles, of New York, who as chairman of the New York Monuments commission is alleged to have failed to account for \$28,476 of the commission's funds.

The total amount of the alleged shortage was \$33,476, but on December 20 last Stanton Sickles, a son of the general, paid the state \$5000 and promised to make good the remainder as soon as certain property in Spain, owned by Mrs. Sickles, could be sold.

Mrs. Helen D. Longstreet, widow of the famous Confederate general, came to the aid of her husband's civil war foe, General Daniel Sickles, with an offer to raise \$23,476 among the "ragged and maimed followers of Lee" to pay General Sickles' alleged debt to the state of New York.

A surety company gave a \$30,000 bond for the veteran's freedom.

Nature's Methods.
Nature is no spendthrift, but takes the shortest way to her ends. As the general says to his soldiers, "If you want a fort, build a fort," so nature makes every creature do its own work and get its living, be it planet, animal or tree.—Emerson.

Both Sides.
Crawford—To do a thing well, you know, you must do it yourself. Crabshaw—But you miss the fun of seeing the other fellow work.—Judge.

Fahrenheit's Zero.
The word zero is from the Spanish and means empty; hence nothing. It was first used on a thermometer in 1795 by a Prussian merchant named Fahrenheit. From a boy Fahrenheit was a close observer of nature, and when only nineteen years old by experimenting with snow and salt he discovered what he believed to be the lowest degree of temperature known in the world. He called the degree zero and constructed a thermometer with a scale graduating up from zero to boiling point, which he numbered 212, and the freezing point 32, because, as he thought, mercury contracted the thirty-second of its volume on being cooled down from the temperature of freezing water to zero.
