

## MEXICAN REBELS CAPTURE CAPITAL

Felix Diaz Released from Prison Leads Revolt Ousting Madero

Mexico City, Mex.—The army rose in revolt Sunday in Mexico City, took possession of the public buildings, shot down federal adherents in the streets, released General Felix Diaz, leader of the Vera Cruz revolt, and General Bernardo Reyes, from prison, and, falling into line under the Diaz banner, virtually captured the Mexican capital.

It is believed that not fewer than 250 persons were killed in the fighting. Among the number was General Bernardo Reyes.

The mutinous troops were led by students of the military school at Tlalpam, a suburb. They marched to the prison to which General Felix Diaz had been transferred for safe keeping and released him. General Bernardo Reyes also was freed from Santiago military prison, there being no resistance in either quarter.

Francisco Madero, president of the republic, led the loyal troops for a time. Later, with members of his cabinet, he took refuge in the national palace, where they were besieged.

### 90 Per Cent Vote Strike

New York.—The ballots of the 30,000 firemen employed on 54 Eastern railroads, it was announced unofficially, show that 90 per cent of the men favor an immediate strike unless the conference committee of managers agree to arbitration under the Erdman act.

### Mrs. Cleveland is Quietly Married.

Princeton, N. J.—Mrs. Grover Cleveland and Thomas J. Preston, Jr., were married here by President John Grier Hibben, of Princeton University, in Prospect, the executive residence of the university.

## NEW YORK POLICE GRAFT \$2,400,000

New York.—Two million four hundred thousand dollars graft from gamblers, poolroom men and illegal resort keepers—\$1,200,000 for the captains and their collectors, \$600,000 for inspectors, \$600,000 into the hands of one man and then cut again, divided into three parts, one for a hotel man, one for a man who represents an office holder, and the third for a man who presented himself for another official.

Through the confession of Captain Walsh it has been learned, the amount alleged to have been collected for police protection in his precinct was about \$1400 a month. This amount, it is alleged, Captain Walsh paid a patrolman \$70 for collecting, and divided the remainder with an inspector.

### Turks Lose Another Stronghold.

London.—Severe fighting has occurred in the attempt of the Montenegrins to capture Scutari. The Montenegrins are reported to have taken Bardanj Hill, one of the strategic positions, but at a cost of 2500 men killed and wounded. The same dispatches place the Turkish loss at 4000.

## MINERS AND GUARDS CLASH

W. Virginia Miners Resist Coal Company's Guards

Charleston, W. Va.—Sixteen are dead, including 12 miners and four mine guards, as the result of a battle in the Kanawha County coal fields. Two score are wounded.

Striking miners marching toward Mucklow were met in the mountains by a posse under Fred Lester, a former captain of the West Virginia National Guard, now in the employ of a coal company. A sharp engagement followed. A bookkeeper and two mine guards were shot dead and several miners were killed and wounded. Lester and his men were slowly driven back, contesting every foot of ground. All trains of the Chesapeake & Ohio railroad into the strike territory are equipped with machine guns.

### Women Destroy Valuable Plants.

London.—Militant suffragettes destroyed many valuable plants and did other damage, reaching a total of \$5000 in the hothouses of the Kew Horticultural Gardens here. Thus they developed another part of their plan of campaign to force the government to give the vote to women.

### Japanese Riot in Tokio

Tokio.—Six persons were killed and 65 seriously injured in a political rioting here. The situation is serious. The Premier of Japan, Prince Katsura, was stoned by a mob in the streets. His resignation has been demanded by the people. Mobs attacked the offices of the bureaucratic newspapers and threatened the dwellings of the ministers. They burned and wrecked police stations, tram cars and private buildings.

## OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

### LOGGING CAMPS ARE OPEN

Warm Weather Encourages Loggers; Market is Steadier.

Portland.—With the disappearance of the snow in the timber, logging camps in the Columbia river district are gradually resuming operations after a shut down of more than a month. This will be welcome news to some millmen who in the past month have run short on logs as a result of the good demand for the sawed product. Some mills, it is stated, will have to close down for several weeks, unless the logging camps come to their rescue shortly.

The situation looks good to the loggers for the market is steadier than at any time during the past two years and prices are better, too. For the present the ruling basis of quotation is \$7, \$10 and \$13, but it is considered possible that \$1 will be added to this price on February 15, when the dollar advance per thousand goes into effect on Puget sound. However, opinions differ somewhat on this point among the loggers here.

### Water for Irrigation is Assured.

Baker.—There is more snow in the mountains of eastern Oregon at the present time than for several years past, and indications are that the coming spring and summer will see more water available for irrigation and placer mining than there has been for several years. The deepest snow on the level reported from any of the nearby territory is twelve feet at Cable Sove in the Sumpter district, about 7000 feet above sea level. At Sumpter there is five feet on the level, at Greenhorn and Bourne nine feet, and about the same depth at Cornucopia, in the northeast end of the county.

### Farmers Resent Monopoly.

Pendleton.—Warmly resenting the apparent operations of a grain bag monopoly, which seems to be planning a double priced holdup of the grain growers of the northwest for the coming summer, local farmers through the county union of the Farmers' Co-operative and Educational Union are planning to ask aid from the legislature and from the national congress if necessary.

At this time the grain bag brokers are asking 11 cents for bags for the coming harvest. This price is regarded as outrageous by the farmers since the Indian jute crop this year is reported as remarkably heavy. It is pointed out that the 11 cents per bag quotation now given is prima facie evidence that the supply of bags is monopolized. At this time last year grain bags were quoted at 6 1/2 cents.

### Large Apple Crop Assured.

Hood River.—That Hood River valley will have a very large crop of apples next year seems evident from the results secured in the blooming of the standard varieties. The Davidson Fruit company has for many years followed the plan of forced blooming of the several varieties, which has given it a concrete basis upon which to base estimates of the annual yield of apples in the valley.

The indoor orchard composed of a large number of limbs taken from fruit trees and bloomed by steam incubation, is now prophetic of what the orchards will be later. The old Spitzenberg trees show an extraordinarily heavy crop. Jonathans are also very heavy with bloom. Newtowns, Winter Banana, Oregon Red, Black Twig, Red Cheeks and Ortleys are also showing a full crop for next season.

The estimate for next season's crop is about 1,250,000 boxes.

### Relief Boat Goes to Nehalem.

Portland.—As a sort of relief boat the gasoline schooner Mirene, Captain Mays, left on a special trip to Nehalem loaded to the guards with provisions. For the last two or three weeks Nehalem practically has been shut off from the outside world so far as transportation facilities are concerned. The washouts and landslides put the railroad out of commission temporarily. On the completion of the railway the steamer service from Portland to Nehalem was discontinued. Consequently the residents have been unable to get in any supplies recently. It is said the stores there have about been depleted of various kinds of necessities.

### Camps to be Electrified.

Marshfield.—Electrically operated logging camps is the plan of the Smith Lumber company here. The company is planning to electrify all its plants in this county. In addition to the work that is now being performed by donkey engines, each camp will be supplied with a new electrically operated saw for cutting trees.

## NEWS FROM OUR NATIONAL CAPITAL

House Passes Bill Prohibiting Liquor Shipments Into Dry Territory

Washington.—By a vote of 240 to 65, the house passed the Webb bill prohibiting the shipment of intoxicating liquor from "wet" into "dry" states, after several hours of bitter debate in which the bill was characterized as "an anti-saloon measure, meant to force congressional approval of prohibition."

The vote was taken only after a flood of amendment had been submitted, both by enemies of the bill, to invalidate it, and by friends of the measure, who wished to broaden its scope. Humor and bitterness marked the debate on the measure.

Democratic and Republican ranks were split in the fight, Ollie James, of Kentucky, being one of the leaders against the measure. Representative Clayton, of Alabama, chairman of the judiciary committee and a prominent Democratic member, led the fight for the bill, and Representative Hammel, of New Jersey, headed the opposition.

Under the provisions of the Webb bill, no intoxicating liquor may be shipped by interstate commerce into dry territory for the purpose of selling it. The measure does not attempt to regulate the shipment of intoxicants for private consumption. Disposition of all violations of the law is left to the states or the county regulations in the territory in which the offense occurs.

### Democrats Split Over Battleships.

House Democratic economists, or at least 73 of them, who attempted to pledge their party on the battleship question, failed to secure a quorum in caucus and were compelled to adjourn. The Democrats who favor a one or no battleship appropriation were present in full strength. The two battleship advocates, a few of whom were present, declared that they were in the majority this year when they cared to be present and that the naval appropriation bill when reported to congress will provide for two dreadnaughts.

The senate passed the bill, already passed by the house, as a substitute for the Kenyon-Sheppard bill.

### House Begins to Hurry.

With seven appropriation bills, aggregating over \$1,000,000,000, to pass in 10 working days, Democratic leaders announced that, beginning early this week, the house would burn the midnight incandescents—also starting work at 10 o'clock in the morning.

Should the senate hold up these bills, Democrats declared that the special session might be called immediately after March 4, so that the few weeks might be used in clearing up unfinished business before the ways and means committee's draft of the tariff bill was ready to be submitted. Chairman Underwood, of the ways and means committee, declared that, from present indications, though the committee was working all day and part of the night formulating its report, he feared that it would not be ready before March 15.

### Federal Railways for Alaska Urged.

Alaska's vast resources can best be brought within reach of the world, in the opinion of President Taft, by the construction, with government assistance, of two railway lines from the Alaskan coast to the interior, ownership of which shall be vested in the government, but which shall be operated by private parties under lease.

In a special message transmitting to congress the report of the Alaskan Railway Commission, the president strongly urged legislation along these lines, asking that the government either guarantee the principal and interest on bonds necessary to build the roads, or construct them.

### National Capital Brevities.

President Taft vetoed the bill to authorize the commissioners of the District of Columbia to supervise the exhibition of moving pictures.

A fight is being framed up among the Wilson Democrats here to oust Senator Turner, of Washington, from his \$7500 job as a member of the International Waterways Commission, and to secure the appointment of Charles Helfner, of Seattle.

Compulsory adoption by all interstate railroads of the block signal system is the most important recommendation for the block signal and train control board made in its final report to the interstate commerce commission.

The soaring price of crude oil is being investigated by the department of justice in connection with its inquiry to determine whether the decrees dissolving the Standard Oil company has been violated.

The majority of the house committee on ways and means, who are framing tariff legislation for the coming extra session of congress, agreed upon radical reductions in the customs duties on mica, asphalt and various kinds of chinaware and glassware of the cheaper varieties.

## WANTED AND FOR SALE

Newberg Lodge No. 104 A. F. & A. M. Regular meeting First and Third Wednesday evenings of each month. Visiting brothers always welcome. By order W. M., R. H. C. Bennett, I. A. Hanning, Secretary.

MONEY TO LOAN—See Atty. B. A. Kliks, McMinnville, Oregon.

Money to loan. See Clarence Butt. 2-11

For Sale or Rent—Ten acre prune orchard. J. L. Haworth, tf

For Sale—Early Michigan potatoes for seed.—Jas. Buckley. 17-20 pd

For Sale—Clover seed and four turkey gobblers.—Walter Wilson. 17-18-pd

Cows For Sale—Durhams and Jerseys. Also buy beef, veal and mutton.—Wesley Boyes, Route 2. tf
