**UNITED STATES MAY INTERFERE**  
**National Government Sees Danger in Proposed California Japanese Legislation**

Sacramento, Cal.—Two new bills dealing with the question of land ownership by aliens in California, each representing the view of a considerable faction in the legislature, will be offered to the senate and voted on.  
 Through an agreement reached by leaders of the majority party, a drastic law directed solely against the Japanese and Chinese will be proposed as a substitute for the Thompson-Birdsall measure and probably will be passed.  
 It is planned to throw out entirely the guarded language of Thompson-Birdsall and put in its place two simple prohibitions:  
 First—No alien who is ineligible to citizenship shall be permitted to acquire and hold land in California, for a period of more than one year after date of such acquisition.  
 Second—No corporation, the majority of the stock of which is held by aliens who are ineligible to citizenship, shall be permitted to acquire and hold lands except for one year.  
 Governor Johnson gave out a statement in which he declared that California was only doing what other states have done in restricting ownership of land by aliens and said that Californians are unable to understand why an act admittedly within the jurisdiction of the California legislature, like the passage of an alien land bill, creates tumult, confusion and criticism.

**LORD CHURCHILL ROBBED**  
**England's First Admiralty Lord Loses Naval Data**

London.—Winston Churchill, first lord of the admiralty, has been the victim of a most daring and sensational robbery, in which a beautiful and mysterious young woman is suspected as the possible agent of some foreign power.  
 By the theft the first lord of the admiralty not only loses \$2500 in money, but highly important confidential naval data, such as might eagerly be sought as of greatest value to any nation not too friendly with Great Britain.  
 The first lord of the admiralty met with his misfortune immediately after having won money at cards on the Riviera recently.

**Pope is Much Better.**  
**Rome.—So much improvement was found in the condition of the Pope by Drs. Marchisava and Amici that they did not consider it necessary to issue a bulletin.**

**MORGAN'S WILL ASSERTS FAITH**

New York.—"I commit my soul into the hands of my Savior in full confidence that, having redeemed it and washed it in his most precious blood, he will present it faultless before the throne of my Heavenly Father; and I entreat children to maintain and defend, at all hazard, and at any cost of personal sacrifice, the blessed doctrine of the complete atonement for sin through the blood of Jesus Christ, once offered, and through that alone."  
 This is the extraordinary and striking utterance which begins the last will and testament of John Pierpont Morgan.  
 The amount of trusts and bequests named by specific sums is under \$20,000,000, but the entire residue of the estate, estimated at \$1,000,000,000 is left to J. P. Morgan, Jr.  
 The largest individual settlements are made upon the son and three daughters.  
 Each of the four children receives in trust \$3,000,000 to use the income as he or she pleases.  
 Mrs. Morgan, the great financier's second wife, is made the beneficiary of a trust fund large enough to insure her an income of \$100,000 a year.  
 The two sons-in-law, Satterlee and Hamilton, are given \$1,000,000 each. The assistants and servants in the Morgan households and institutions are provided for liberally.

**Knox Bill Refused.**  
 Sacramento, Cal.—Through the Panama-Pacific Exposition commission state has refused to participate in the expenses of ex-Secretary of State Philander C. Knox, who visited California just May ostensibly to boost the exposition, on the ground that that official used the occasion to aid President Taft's political aspirations.

**Tommy Murphy Defeats Wolgast.**  
 San Francisco.—For 16 rounds "Harlem" Tommy Murphy and Ad Wolgast battled, with little to choose between them. Then a missed right swing by the one-time champion was his undoing and paved the way for a fight-end decision in favor of Murphy.

**DAZED THE MOROS**  
**Sights the Sultan's Suit Saw on Board the Charleston.**  
**FUN IN FRAMING A TREATY.**

General Bates Had a Sort of Circus on His Hands While Negotiating With the Filipino Potentate For the Transfer of the Islands to Uncle Sam.  
 Few treaties ever were negotiated in more interesting and ludicrous circumstances than those that attended the one made in 1899 between General Bates and the sultan of Moro.  
 When, after much dillydallying, the Filipino potentate was finally induced to come on board the Charleston, the general's headquarters, every effort was made to put him in good humor. He and his suit partook freely of drink, but refused all food as coming from the hands of Christians. Yet they were in no danger of starving, for they had been careful to bring with them enormous sacks of rice.  
 When the guests were conducted over the man-of-war they marveled at its mechanical mysteries. At the suggestion of an officer the sultan touched an electric button, and instantly a Chinese servant appeared. Again, in response to a suggestion, he touched the button twice, and a United States marine stood in the doorway.  
 From that time every ornament aboard the ship that in any way suggested an electric button was pushed by the sultan or by some member of his suit. An officer conducted him into a dark room and showed him how to turn the button that adjusted the lighting apparatus. The flood of light that resulted left him with gaping mouth and dilated eyes.  
 His wonderment continued to grow throughout the afternoon, and whenever an opportunity afforded he repeated the performance of pushing electric buttons and turning electric lights on and off. He even went so far, when he thought himself unwatched, to try to appropriate one of the lighted bulbs.  
 When ice water was brought in the lump of ice in the pitcher was immediately seized by his royal highness and as quickly dropped to the floor. As the lump gradually diminished in size the sultan's party looked at it in suspicion.  
 Mr. Shuck suggested to the sultan that he order one of his men aloft and recall him when he reached the crow's nest. The first order was easy to execute, but when a return was ordered, his voice having failed to carry, a megaphone was brought, and into this the sultan shouted for the man to return under penalty of instant death. Immediately the thoroughly frightened Moro dropped to the deck. The ruler took the dimensions of the strange mouthpiece and declared that he would make one for himself.  
 The most amusing incident occurred when the sultan upon invitation fired a Colt automatic gun. The explosion of the first discharge appeared to root him to the spot. His hands gripped the trigger, with the result that shells continued to pepper the surrounding waters.

**AGENT SENT TO UMATILLA**  
**Secretary of Interior Has Received Conflicting Stories of Project.**

Washington.—There should be little wonder that the secretary of the interior, Franklin K. Lane, is unable to decide just what course to pursue with respect to the West Umatilla extension reclamation project.  
 Reports have reached the secretary that indicate a serious condition at the project and he would like to know what weight to give them. He has intimated pretty plainly that he will send an agent to look into the matter and give him an impartial report.  
 The investigation if made will probably be conducted expeditiously. The agent is likely to be selected from the western country itself, but he will not be a man having any reason to show bias either for or against the project he will be asked to investigate. Secretary Lane will probably try to get his opinion as soon as is consistent with a proper report, and he will then act on it without unnecessary delay.

**Bigamy and Theft Woman's Charges**

Portland.—Joseph E. Ellis, whose aliases are, according to county officers, Rev. E. L. Richards and C. H. Duffy, was taken from the California Limited at Dunsmuir, Cal., by local officers, acting under instructions sent by Sheriff Word. His wife, two daughters and a son were also taken from the train. Sheriff Word sent a deputy to bring the family back to Portland, where Ellis, or Duffy, may be charged with bigamy and swindling a woman whom he recently married in Georgia, out of \$2560.

**Klamath Allotments Put on Block**

Klamath Falls.—Scores of inherited allotments on the Klamath Indian reservation will soon be offered for sale. The minimum price at which the lands can be sold is fixed by a board of appraisers. The lands are then advertised and sold to the highest bidder, but no bid less than the appraised valuation is considered. The money derived from the sale of the lands goes to the heirs of the deceased. Before the lands are sold the agent in charge of the reservation calls a meeting of all heirs.

**Text Book Commission to Reduce Cost**  
 Salem.—As the law creating the state text book commission was enacted for the purpose of making school courses uniform through the state and reducing the cost of books to a minimum, the attorney general rendered an opinion that the state text book commission had no authority to adopt two or three books in the same branch of study, in order to give teachers a selection, or to designate books for supplementary reading.

**C. & E. LINE MUST REBUILD**  
**Commission Finds Track is Poor and Urges Immediate Improvement.**

Salem.—All of the line of the Corvallis & Eastern railroad company, from Corvallis to Yaquina, a distance of 71 miles, must be relaid with new steel rails, and properly ballasted, and all of the company's line, consisting of 140 miles, must be ballasted, for the state railroad commission, which made an inspection of the whole line, directed that the company make such improvements. While these directions were not reduced to the formality of an order, the commission intimates that unless they are obeyed a formal order will be made.  
 The commission finds, to begin with, that the entire track of the company's line is unballasted. The track east of Albany, it says, consists of 56-pound steel rails, laid in 1887, and the surface is kinked and out of alignment. By laying new ties and properly ballasting, this condition can be remedied, says the commission. From Albany to Corvallis the track needs ballasting, but otherwise it is found good.

**Placer Gold Strike on Canyon**

John Day.—A feverish gold stampede has just been started by a strike on Canyon Mountain, made by an old-time prospector, Dan O'Shea. O'Shea made his strike more than a week ago, but succeeded in keeping it a secret several days. When the news finally leaked out there was an immediate rush. It is rumored O'Shea has taken out between \$2500 and \$3000. One pan it is said, yielded him \$200.

**Anvil May Yet Be Saved.**

Florence.—Mr. Genereaux, who has charge of the Anvil for the insurance company, found after an examination that the vessel is in much better shape than was feared and is confident of success in the attempt float her. She is gradually moving closer into deep water.

**Studebaker**

**"Yes, our new wagon's a Studebaker—the only kind we KNOW"**

"The Studebaker idea has been in our family for sixty years. We have never thought of buying any other kind of a wagon."  
 "It's true, we're continually being offered other wagons costing a little less, with lots of promises as to what they will do. But we know in our family what a Studebaker will do. A few dollars difference in price doesn't mean much. It's the service a wagon gives that we consider most."  
 "Long service for a fair price means more every time than short service for a few dollars less."  
 "That's why we stick to Studebaker—and 'Stick to Studebaker' is a pretty good motto for a man who uses wagons."  
 "Studebaker wagons are built of good stuff. They're made right by people who've had years and years of experience in making them right—people who are trusted the world over."  
 "Studebaker wagons last, because they're made to last."  
 "Look out for the dealer who tells you his wagon is just as good as a Studebaker. That's my advice after a good deal of experience—and the experience of all my people. You get a Studebaker and you've got a safe investment."
