ALL RAILWAYS TO SAFEGUARD THE PUBLIC AGAINST DISEASE

Aside from the customary disinfection of passenger coaches the medical department of the Great Northern railway has gone several steps farther in joining the country-wide movement to safeguard public health. It has been the custom for several years to compel all applicants for positions on dining and sleeping cars to undergo the strictest physical examination before entering the employ of the Hill system. The latest order draws the line even finer, making it imperative that every employe who even takes a short leave of absence to undergo a physical examination by company physicians before returning to the service. In this way, the medical corps declares, it will be impossible for any employe to continue in the public service if he is suffering from tuberculosis or any other infectious or contagious disease. Further precaution is taken by the company in barring undesirable employes from employment where food is stored and linens or tableware are kept.

The Great Northern railway is one of the few systems that owns its own sleeping cars, and thus it is enabled to carry out the innovation advocated in the leading medical journals, of placing an absolute barrier against the spreading of disease, by having its medical corps guard every possible avenue of danger.

The American Medical Association, which will convene in Minneapolis in July, is expected to launch a far-reaching public health campaign along these lines, urging every railway in the United States to join in the movement.

NOTICE TO ROYAL ARCH MASONS

All Companion Royal Arch Masons residing within the city of Newberg, and the adjacent territory that would be included under the jurisdiction of a chapter of Royal Arch Masons, providing the same were instituted at Newberg: Take notice.

There will be a meeting of Royal Arch Masons held in the Masonic Hall, above Lynn B. Ferguson's drug store, Thursday evening, July 10th, at 8 o'clock sharp, for the purpose of taking the necessary steps preliminary to applying for a dispensation to open and hold a charter of Royal Arch Masons at Newberg. Every Royal Arch Mason who desires to have a chapter opened at Newberg, is cordially invited to be present.

Roswell H. C. Bennett, W. M. of Newberg Lodge No. 104 A. F. & A. M. and Past Captain of the Host of Taylor Chapter No. 16 Royal Arch Masons of McMinnville, Oregon.

WERE WELL TREATED

R. W. Lundy, W. A. King and A. M. Arnold of this city and H. H. Brownson, of Bridge, have returned from attendance at the annual G. A. R. state encampment at Newberg. They are unanimous in their praise of the treatment accorded the old soldiers by the people of Newberg and in pronouncing the encampment one of the most successful ever held.—Myrtle Point Enterprise.

MARKET REPORT

Cattle market steady to strong all week. The general run of steers has been above the average in quality, the bulk selling \$7.75 to \$8.25. Several loads of California grass cattle sold at higher prices. The steers in this shipment brought 8.75, the heifers 8.00 and the calves 9.00. Outlet has been very good and the market seems to be on very sound basis. There is a poor demand for stockers and feeders on account of the high water, which condition will be eliminated in the near future.

The hog trade surpassed all records since 1910 for a single week. Prices made a shear gain of 80 cents in seven days. Market opened strong Monday at 8.60, which was a 20 cents gain over the previous week, and by Friday top quality light swine was selling strong at 9.00. Receipts have been very liberal but buying has been on a large scale and the supply was quickly absorbed.

Transactions in the sheep house have been very few due to the light receipts and slow demand for mutton. Extra choice yearlings are worth 4.75 to 5 cents and ewes 4.50. The lamb trade is in very fair shape and prime fat spring stock has had a good outlet, prices ranging from 6.00 to 6.75.

FELL THE WRONG WAY

Two Irishmen were working on a bog one day when one of them fell in. The other at once ran off to find the owner of the farm.

"Well, Mick," said the farmer when the much excited Irishman appeared. "what do you want?"

"I want a spade, quick."

"What do you want a spade for?"

"Sure, an' to dig Pat out of the bog!"

"How far is he in?" asked the farmer.

"Only just over the ankles."

"Then why doesn't he walk out?"

"Oh, but be jabbers! an' hurry up with that spade! He fell in head first!"

NOT CONTAGIOUS

A careful school teacher in the North of Ireland made a rule that if there was sickness in the family of any of her pupils they must be able to report if it was contagious.

A small boy came to the school one day.

"Please, teacher, mother is sick, but I don't know whether it is contagious or not."

She sent him home at once to find out, and he returned with the report:

"It ain't contagious, teacher; it's twins."

TO RECLAIM TULE LANDS

Owners Anxious to Close Channel Between Lake and River.

Klamath Falls.—Owners of tule land bordering on the lower Klamath lake have begun negotiations with the reclamation service to close the channel connecting the lake with Klamath river. If this is done the lands will soon be reclaimed by evaporation. When the railroad was built across the marsh, concrete headgates to control the flow of water across the channel were partially installed through the efforts of Abel Ady, who owned most of the land across which the railway company had to get a right-of-way. The closing of the gates has been prevented by the Van Brimmer Ditch company, a private irrigation concern, which gets water from the lower Klamath lake. It is now proposed by the swamp land owners to supply water for the Van Brimmer ditch from the main canal of the Klamath project.

The channel could then be closed and close to 30,000 acres of marsh land made available for grazing and farming. The plan meets with the approval of the local officials of the reclamation service.

County Deputies Look After Weights

Salem.—Attention is being called by Deputy State Sealer of Weights and Measures F. G. Buchtel to the fact that under the bill creating his office, it is mandatory upon the county courts to appoint deputies in the counties of the state. These deputies will be under the supervision of the deputy state sealer of weights and measures. Mr. Buchtel has been provided with a room at the statehouse and has entered actively upon his duties.

Court of St. James.

The court of St. James derives its name from the palace of St. James, and the official designation is the court of St. James', the ugly possessive form thus having the sanction of law. The palace was erected by Henry VIII, when in 1532 on the dissolution he came into possession of a lazaret house dedicated to St. James the Less, which had been founded earlier than 1190. At the fall of Wesley, York House, the residence in London of the archbishops of that see, escheated to the crown, and Henry rebuilt it as the palace of Whitehall. After the commonwealth and the destruction of Whitehall the palace of St. James became once more the royal palace of residence and remained such to the reign of George IV. Although Buckingham palace is now the place of royal residence, the official name of the court continues to recall the older place.—New York Sun.

NEWBERG WOOD YARD
