He has become so accustomed to riding in a mail coach that he has no trouble in walking about the car without holding to anything, but when off the train he involuntarily assumes the rolling sailor gait which sometimes gives him away. For instance when he arrived here at his brother's, the children noticed his walk and told their parents they believed he had been taking something.

### AT HOME GIVEN BY MRS. MORRIS AND MRS. BARCROFT

### MRS. HARRIMAN GIVES \$10,000 FOR RESEARCH LABORATORY

Mrs. E. H. Harriman, widow of the late railroad magnate, has just given an additional endowment of \$10,000 to the fund of \$50,000 she established in 1911 for the foundation of a bacteriological and pathological research laboratory, in connection with the hospital service of the Southern Pacific Company. This announcement was made today by Dr. F. K. Ainsworth, chief surgeon of the railroad, in whose hands the disposition of the funds is placed.

The purpose of the endowment is to further the progress of medical research. For the last two years, the work has been going on under the direction of Dr. W. T. Cummings of the Southern Pacific general hospital at San Francisco. Dr. Cummings has devoted his time to a study of serums with special relation to typhoid fever and tuberculosis, and has contributed some valuable experimental data to the existing store of scientific knowledge.

The fund is placed in the hands of the Union Trust Company, of San Francisco, the income being turned over to the hospital department as it accrues.

This is the second large contribution to the Southern Pacific hospital service within the last two years, the widow of the late Collis P. Huntington having given \$25,750 for the construction of a social hall now in use at the San Francisco hospital.

### MONEY AND MORALS

Col. Philip Ray, manager of the International Booking Agency, of Portland, who furnished the "Pilgrims Progress" films for the Star theatre Monday and Tuesday nights, is an old lyceum bureau man and gives an interesting talk, privately, of his experiences in handling the giants of the platform of by-gone days.

For a number of years he was located in the Southland, the land of his nativity, and in chatting about lyceum talent at the Graphic office Tuesday, he said for several years he had the booking of the "big four," as he termed them, they being Sam Jones, Col. Bob Taylor, Gen. John B. Gordon and Henry Watterson.

They all sold readily and were money makers for the bureaus, but Watterson gave them more or less trouble on account of his habit of getting on a spree when he got out from home on such a vacation from his office duties. He had no hesitancy in making dates for Marse Henry with committees made up of men, he said, but avoided contracting dates with committees of women, as far as possible, on account of the above named tendency on the part of Mr. Watterson.

At one time, however, he said he had a call for Watterson by a committee of ladies at Dallas, Texas, who had taken over the lyceum in that city from the Y. M. C. A. He tried to induce them to take other talent but nothing else would satisfy them and he signed up the contract for W.

The date fixed for the lecture was during State Fair week in Dallas and it turned out that Watterson spent the day at the race track where he had a time with the boys. He managed to get through with his lecture at night fairly well, but the day following he hit the high places again, making "Rome howl."

Col. Ray says he carefully avoided meeting the Dallas committee for nearly a year, when he again called on the ladies to talk lyceum talent. At the meeting he cast his eyes toward the ceiling and casually inquired how they liked Col. Watterson. Several pairs of eyebrows were elevated at once and the president said: "Col. Watterson gave us a lecture on "Money and Morals" and the next day we were convinced that he had neither."
