COLLEGE NOTES

Tuesday evening, November 4, the faculty laid aside its proverbial "dignity" for a short time and indulged in a "feed" in the chemistry laboratory. Wienes, coffee and marshmallows were indulged in with "hot tamales" as the "piece de resistance."

CHOOSING THE RIGHT PRESENT

Are you in doubt about a certain present? The Youth's Companion has proved to be one of the best that can be chosen. Perhaps you have not seen it lately, and are not quite sure. Then let us send you a sample copy or two. Suppose you ask for the issues containing the opening chapters of Arthur Stanger's fine serial story of life in a boys' school—"His Father's Son." If you look the paper over carefully, bearing in mind that there are fifty-two such numbers for a year's subscription of \$2.00, we are sure you will say that a better present could not be chosen, whether for a young person or for an entire family.

For the year's subscription of \$2.00 there is included a copy of The Companion Practical Home Calendar for 1914, and all the issues for the remaining weeks of this year, dating from the time the subscription is received. If you ask for sample copies we will send with them the Announcement for 1914.

The Youth's Companion, 144 Berkeley St., Boston, Mass.

HIGH SCHOOL NOTES

Students of the high school and prominent business men of our city are quite highly elated. The reasons for such smiles and broad grins are probably the result of Saturday's football game in which Newberg was returned the victor over Forest Grove High School by the score of 25 to 0.

If dope is to be at all relied upon, Newberg H. S. has more than the edge on Mac this season.

Twenty-five years ago the man who claimed that dyspepsia or nervous headache could be cured or relieved by properly fitted glasses was considered a quack.

Mrs. — : All summer I had terrible sick headaches, but I haven't had any headaches since you fitted me with glasses.

Miss — : I always knew something was wrong, for I could not see things far off; others could, and I always had such headaches. Now I can see just fine and have no headaches.
