### SI DRAFT AND JUNE BRIDES.

I calculate that next to a Peacock the prettiest thing on earth is a bride and this is the time of year when I always have a good time settin' around down there at "The Big Hdwe. Store" watchin' them bring their grooms in there to buy their house keepin' supplies. You can always tell them from just common people, 'cause they always act like they was afraid they was going to lose each other and the minute one of them happens to get out of sight of the other they're lost for sure. They're sometimes kind of timid when it comes to buyin' things but I've always noticed the bride does not hesitate to speak up when the boys show them rollin' pins or brooms and it's a sure sale every time, and that's right where I pat myself on the back cause I ain't married. But it's alright and it all goes in a life time and the boys there at the store treat them mighty nice and the stuff they can buy there

will last them most a lifetime I believe. Why, them Monarch Malleable Ranges are built like a battleship, and they can't help but last and it would sweeten the temper of any woman to use them I know, 'cause the boys say that they don't take hardly any wood and they bake like a dream and I've always noticed too that the bride and groom that was'n't figuring on gettin' a divorce in a year or two buys them cause it's a cinch they'll last 25 yrs. at least calculation. Of course they cost a few bones more than an ordinary Steel Range but I'm tellin' you it's economy to buy the high grade stuff, every time, but Larkin-Prince ain't behind the times, they've got Ranges from \$30. and up and you can't help but find what you want there in that line. Another thing I've always noticed if the groom wants his wife to die off sometime in the near future that he always commences speakin' up when it comes to the cheap enamel ware 'cause it has been known to give people appendicitis by peelin' off in the gravy or somethin' that they was cookin' and the peeled off piece catchin' in their appendix, it's too bad but it will happen, but the groom that likes good sanitary cookin' and wants his meals to cook quickly and wants his bride to enjoy life while she's cookin' buys Wear-Ever Aluminum ware and its a cinch it's the cheapest stuff to buy in the long run and you'll look till your gray headed lookin' for a piece of Aluminum goods that will do the work as well and last as long as Wear-Ever. The Wear-Ever trade-mark is an absolute safe guide in buying Aluminum goods. I've noticed another thing that most of these women around town that can smile after they have put out a big washing are using One-Minute Washing Machines, and the bride and groom that get one of them are making the right kind of start. Larkin-Prince sells them by the dozens.

I'm tellin' you right, young people, if you startin' out in life and need some household equipment you won't go wrong if you get your goods at Larkin-Prince Hdwe. Co., there's a reason for it too. They go after the very best manufactures lines of goods, and they get them too, they're not dead ones, they've been in the game long enough to know the good from the bad in their line too and they'll give you the right steer if you'll let them. 'Specially you fellers that are goin' to get your livin' out of mother earth, you'll travel till your blind lookin' for better stuff than the John Deere Plow Co., make, and you'll find that well known guaranteed line of goods starin' you right in the face there at "The Big Hdwe. Store" and them boys there are always glad any time of the day or night to show you the goods.

There's no use talkin' friends and relatives this dope they call money is hard to get and it dont pay to squander it on lines of merchandise that you know nothing about. When you think about Hdw. & Imp. think about Larkin-Prince Hdwe. Co., and the wheels in your head are turning the right way.

## SUBMIT PEACE PLAN IN MEXICO SITUATION

United States' Draft Presented to South American Mediators for Consideration.

Niagara Falls, Ont.—The United States government, through Justice Lamar and Frederick W. Lehmann, presented to the three South American mediators a complete plan for the pacification of Mexico.

It is the same in principle as that presented by the mediators and already agreed to by the Huerta government. It contemplates establishment, at the earliest date practicable, of a new provisional government in Mexico City, which would conduct general elections for a permanent government.

No other internal questions are included in the peace plan, as recommendations and suggestions with reference to agrarian and educational reforms are phrased in such a way as to constitute advice rather than dictation.

The plan includes provisions for general amnesty, the payment of claims, the withdrawal of the American forces from Vera Cruz and kindred subjects which would develop when General Huerta retired and a new provisional government was installed.

### VERA CRUZ PRICES SOAR

Funston May Open Army Food Market to Restore Normal Costs.

Vera Cruz.—Brigadier-General Funston announced that he contemplated appointing a commission of Mexican residents and American army officers to investigate the increased cost of living in Vera Cruz since the occupation.

Complaints have reached the general that wholesale dealers and importers have been squeezing the retail dealers and hotelkeepers. Several importers are known to have considerable stocks on hand, but they are forcing up the prices.

It is said General Funston may seek permission to sell army subsistence to restore normal prices.

### Deputies Guard John D.

Tarrytown, N. Y.—To guard against molestation of John D. Rockefeller and his son at Pocantico Hills, thought to be possible due to strike developments in Colorado, 16 deputies from the White Plains county jail were placed on the Rockefeller estate.

## HUERTA RESCINDS ORDER TO BLOCKADE

Washington.—General Huerta later suspended the order to blockade Tampico against the delivery of ammunition by the steamer Antilla to the constitutionalists and averted a new crisis between the United States and the Huerta government, which had threatened mediation of Mexican affairs.

Although the Washington officials expressed satisfaction over Huerta's action, it was persistently suggested outside of official circles that the blockade had been suspended only conditionally as a result of conferences between the South American mediators and the Mexican and American delegates at Niagara Falls, and that the Antilla's cargo of arms might not be delivered at Tampico at this time.

Washington.—A new crisis in the Mexican situation was brought about by President Huerta ordering gunboats to blockade the port of Tampico and to seize a cargo of ammunition en route there for rebels aboard the Antilla, from New York, flying the Cuban flag. Huerta notified the powers of his intention to blockade the port and that he proposed to seize the cargo consigned to the belligerents against his sovereignty as contraband of war.

### Indictments Found Against Plumbers.

Des Moines.—Indictments were returned against 36 officials and members of the National Association of Master Plumbers and officials of state organizations in Illinois, Wisconsin, Michigan, Minnesota, Missouri, Nebraska and Iowa by the federal grand jury. The indictments charge conspiracy in restraint of trade in violation of the Sherman anti-trust law. It is specifically alleged that the National Association of Master Plumbers has been operating in violation of law ever since its organization in 1898.

### 19,000 Workmen Strike.

Pittsburg.—Ten thousand workmen employed by the Westinghouse interests in the plant of the Westinghouse Electric & Manufacturing company, the Westinghouse Machine company and the Pittsburg Meter company, struck.

Will stand this season at

## The Ranch of J. D. Gordon & Son

One mile east of Newberg.

This stallion has sired some of the prize winners at our state fairs. On account of the lateness of the season in getting him, and to cut out the expense of traveling him, we are going to stand him at

TEN DOLLAR TO INSURE A FOAL

This, we figure, will give the breeders an opportunity to get the service of one of the best sires at a small fee, and we will save the ten-dollar benefit we give the farmer in expenses. This horse is known as the Morris or Deranoeau horse.
