A large number of Newberg people attended the Rose Festival in Portland last week and were delighted with the daily programs given. The night trains leaving the city after the festivities were over, were a great convenience to the people who preferred to come home at night, rather than to remain in the city and take chances on getting a sleeping place. The crowd that was out Friday night to witness the electrical display was probably the largest that has ever lined the streets of the city. In places it reached the stage of serious congestion, and yet all were so good natured that no disturbances or casualties resulted.

This is Important to You

There are many people who suffer with physical ailments that do not know that the eye is responsible for these troubles.

There are people who have had headaches, been nervous, had stomach trouble and similar ailments, due to eye strain, for 20 and even 30 years, who would never suspect glasses would give relief.

Whenever sight is not perfect, the muscles of the eye are always on a strain, and it takes more nerve force to supply these muscles of the eye than should have to go to the eyes, thus robbing other parts of the body.

We have the very best instruments and take the same pains with your eyes as we would with our own.
