WHY NOT TAG OREGON BACHELORS?

A great many state legislatures have given consideration to bills taxing bachelors and many convincing arguments have been presented why men who escape matrimony should pay a penalty, but why not tag them as a more painless and effective method of extermination? If the bachelors were tagged the widows could easily find them and cupid would do the rest. The bachelor is naturally timid, but under the encouraging influences of a merry widow he can easily be led to the altar, for there is no more helpless craft afloat than a lovesick swain who has passed the age of dis-

cretion, and the little imp that plays ping-pong with human hearts has no more capable ally than a woman who loves at second sight, for experience makes cupid subtle and bold. The women have tag days to promote most every other public enterprise, and why not a tag day for bachelors? We have in Oregon approximately fifty thousand bachelors and an equal number of widows. Why not get them together and solve two vexatious problems with one marriage license?

Eight Hours Was the Limit.

According to Col. Bob Lindsay, and the Colonel usually has a good one, two Irishmen met in the street, and stopped to discuss affairs in general.

"Tim," said one of them, "did yez hear about Casey?"

"I did not," was the reply.

"What about Casey?"

"Why, Casey was drowned."

"Not big Tim Casey?"

"It was the same."

"But Casey could swim like a dook."

"Yis, yis, and he did swim. He kept it up for eight hours. But poor Casey! He had to quit! He belonged to the union."

Do you know that nine students out of ten whose eyes are not perfect are dull in school? School will soon be commencing. Are you going to let your child be at the foot of the class this year, because you neglected to have his eyes corrected? Now is the time to act.
