Residents of Dundee have been complaining lately of petty thievery that has been going on in that neighborhood in the wee small hours of the night. One housewife lost five loaves of bread, and another a sack of onions. The latter watched the burglar at work on the padlock of her fruit house, although he was unable to gain admittance. She has since procured a 22, and says she is ready to meet any further night callers. It is supposed this looting is done by tramps camped between here and Dundee.

OUR MEAT SUPPLY AMPLE

Portland, Ore., Jan. 19, 1915, (Special)—That the livestock industry in Oregon has been developed to a point which makes the state independent of outside sources is indicated by the annual report of the Portland Union Stockyards for 1914. This report shows that 597,180 head of livestock of all classes was received during the past year, divided up as follows: 281,300 sheep; 237,725 hogs; 74,360 cattle; 2,506 calves and 1,239 horses and mules. Oregon's contribution to this impressive total was 48,789 cattle; 2,149 calves; 144,901 hogs and 196,425 sheep, leaving only an unimportant balance to be credited to surrounding states.

One notable feature of this report is the remarkable falling off in the number of calves received, only 3,506 having been received in 1914 as compared with 4,666 in 1913; 2,798 in 1912; 6,818 in 1911 and 8,297 in 1910. This falling off in the shipment of calves seems to indicate that farmers are generally recognizing the importance of retaining all young meat animals either as future breeders or to be shipped as adult animals, a movement which can only result in increased financial returns to the farmers and a more rapid increase in the meat supply of the state.

THE GROUCH

The Great Creator in his wisdom created many men of many minds and temperaments know-

ing that if the sons of men were alike in wishes and desires it would lead to unending strife.

He created well, for man is the noblest work of God. But in some way there crept into the world a creature God did not create—a thing self-made, be it male or female, that is hated, despised and abhorred; a thing self-created, self-pitied and abnormally self-loved.

This self-created creature is the chronic grouch that walks here and there in every town and community searching for happiness—that he may destroy it. Flowers and children, because they represent beauty and love, he detests. He reads as he runs that all men are liars and all women but creatures of evil.

In summer he reviles the bright sunshine and hates the green hills. In winter he reviles the cleansing snow and the purifying frost. The bitterness of gall and wormwood is within his heart.

Children flee from him and his wife can be classed among the martyrs. Men shun him and the world hates him. From an early age he walks this earth spreading unhappiness and unbelief—a maker of evil and discord.

Let us throw the x-ray of self-examination into our own hearts and search out the little microbe that has a tendency to multiply and produce, in time, the hated grouch. There is too much love and sunshine in this old world of ours to spoil it with the canker of selfishness.—The Philosopher.

Is This Your Boy?

You cannot expect him to be interested in his school work if he cannot see clearly. *Small Squinted* may be just what he needs. Unless you are positive your boy's eyesight is all right you should let us examine it at once.
