THE PROOF!

"The proof of the pudding lies in the eating," and the proof of the good silo lies in the satisfaction given the user. That the Indiana Silo solves the problem of how to obtain "Silo Satisfaction" is testified to by the 50,000 farmers and dairymen who have tried it out the past twelve years. So well has the "Indiana" stood the test of actual use that 9000 were sold last year right in sections of the country where it has been tried out for years. Could you ask for better evidence of the superiority of this famous silo?

The Indiana Silo

embodies all the features necessary to the good silo and none of those "extra features" that merely serve to separate you from your money. It's "extra feature" is the years of perfect satisfaction it has given its users. Be sure and investigate the "Indiana" before placing your order for a silo. We shall be glad to explain its merits, quote you prices and tell you about our very liberal terms, at your convenience.
