CHAPTER L. P. E. O. SISTERHOOD

Continued from page 1

of this fund: "The way to become interested in this Educational Fund is to do something for it. Realize that the small contributions made by individual P. E. O.'s and by Chapters, have done this mighty work. One hundred and nine girls living a better, happier, more useful life through these contributions. In turn they help you to help others, and the influence shall grow and spread until nowhere shall be found a being who does not know P. E. O. for its good work."

Some time during the coming summer our readers will probably be asked by Chapter L to help along this good cause by attending an entertainment of some kind.

After the meeting Thursday evening the husbands joined the members of Chapter L and visiting P. E. O.'s, and were entertained at dinner by Mrs. Cooper and her mother, Mrs. Wood. Place cards were yellow stars, bearing the mystic letters, P. E. O. on one side, and the guest's name on the other. After the last course the real surprise came, when Mrs. Cooper passed programs which bore the P. E. O. Star and the following:

Swisher, who is a sister of Mrs. S. F. Wallace, made a most pleasing response, as did Mr. Morris, who also made known which really is his favorite Ford story. Mr. Chapin's remarks were clever, and he gave Mrs. Baird such an opening she discarded what she really had expected to say, and turned the laugh on the B. I. L.'s. Mrs. Morris' reading was well interpreted, as her readings always are, though she does not claim any particular ability or talent along that line. Each number was good, and enjoyed by all, and it was long past midnight when the last "good morning" was said.

The next meeting of the Chapter will be at the home of Dr. P. F. Hawkins Thursday afternoon, June 24th.
