The Judge Says—

Put a package of these real corn flakes—these

New Post Toasties

on trial beside a package of any other corn flakes on the market. The jury will bring in a verdict of "guilty"—guilty of being the finest corn flakes ever made.

The New Post Toasties are crisp and appetizing, with a true corn flavour; and they don't mush down when milk or cream is added.

But here's the real test. Take a handful, fresh from the package, and eat them without cream or milk. Mighty good, aren't they?

Notice the little "puffs" on each flake—a distinguishing characteristic—resulting from the new method of cooking and toasting, which also brings out and enhances the wonderful, true corn flavour.

Your Grocer has the New Post Toasties. Try them and bring in your verdict—
