It seems that Villa is not as dead as he was reported to be and regrets are quite generally expressed throughout the country.

The Graphic was in error last week in giving the date of the "Founder's Day" celebration at Champoe. The correct date is Saturday, May 7.

Of candidates for the legislature, our neighbors across the river in Marion county have two Browns and two Jones', with the well known Smith family yet to hear from.

Just why supposedly virtuous women will appear in public arrayed in gowns so gauzy as to invite suggestion, is one of the mysteries that has never been solved.

The young man who shines out this season in a suit of the latest cut—two sizes too small for his angular body—would have considered himself a martyr two years ago, had his parents insisted on his wearing such outlandish toggery.

In this, the first congressional district, there are two to elect at the primary for delegates to the Republican National Convention and there are four candidates, namely, Albert Abrahams of Douglas county, C. P. Bishop, of Marion, W. W. Calkins, of Lane and B. L. Steves of Marion. The first three named are for Hughes for president, while Steves stands for Teddy of the big stick. Just make a note of this and vote to leave Mr. Steves at home. Of the candidates for delegates at large Chas. W. Ackerman, of Multnomah and F. H. Case, of Benton are also for Roosevelt and it will be well to take a swat at them.

Job ink, such as formerly cost 75 cents a pound, was billed to the Graphic a few days ago at \$2.50 a pound, with this bit of cheering information attached: "For your information we beg to advise you that printing ink is becoming a luxury, not a necessity."

sity, and in fact practically all blues are off the market." The writer might have added that printers will have blues-a-plenty and to spare, before the agony is over, the way matters are going.

If it is true, as reported, that Mrs. J. G. Eckman, of McMinnville, is chairman of a committee appointed to censor moving picture films for that city, she is entitled to sympathy and a good salary, since some of the films she will be called to pass upon will no doubt need a dose of disinfectant before being gazed at, even by a committee.

The total registration of voters in Yamhill county when the books were closed last Wednesday footed up 6930 divided as follows: Republicans 4083, Democrats 1853, Prohibition 686, Socialist 124, Progressive 20, miscellaneous 159. There are a large number of laggards who failed to get their names on the books, as usual, but they will be given another opportunity after the primary election is held.

The leaders of the Republican party who are planning to load the national platform with a heavy charge of extreme preparedness declarations and have it bristling with Roosevelt war talk, will do well to take account of the heavy vote that has been cast for Henry Ford in recent primary elections held in some of the states. The big newspapers may play upon words in their witticisms with Ford as the subject, but the big vote he has been getting is an index of what the people are thinking on the war question, and the party can easily go to such extremes in writing a platform that this vote will be eliminated—and it will be needed if Wilson is to be dethroned. Party platforms, it is generally conceded, are enunciated for the purpose of catching votes, and take it from one of the country papers published in the county of Yamhill, State of Oregon, that the party leaders will do well to pay due heed to the average voter and not listen with too willing ears to the munitions manufacturers in writing the platform for the coming campaign.

A large crowd was in attendance at the Easter program held Sunday morning at the church. Flowers and greenery used profusely gave a spring-like-Easter air to the church, and the program was well rendered. In the evening Mrs. Palmer preached and was assisted by several special numbers by the choir.
