The members of the Public Service Commission were in town the first of the week hearing arguments in favor of a street crossing over the S. P. railroad track at the cannery. While here Mayor Edwards induced them to make a trip down the railroad to the point west of Middleton where the wagon road crosses the track, hoping to get them to use their influence with the railroad people and the Washington county officials to induce them to make a change in the wagon road and have it put under the track instead of passing over it. Years ago the road-way was under the railroad trestle, but when the fill was made by the railroad company, doing away with the trestle, it was changed to pass over the track. It is a dangerous crossing as it now is, and the change could easily be made without any great expense being incurred.

Electricity

in your home is not a luxury. It is as much a necessity as cordwood, victuals and water. You are compelled to have light. Why not have the best? If you are using coal oil you are getting an inferior illuminant, burning up the life giving element in the air of your home, putting unnecessary work on the housewife, clearing smoky, sooty, smelly lamps, with the imminent prospect of a dangerous and expensive explosion that may cost a life, the loss of your home, or both.

Do you prefer this to perfect safety?

If your house is not wired we have an easy plan to offer you that will give you this modern convenience and you will not miss the money. We will extend your payments for house wiring over a period of 6, 9, or 12 months to suit your convenience. Electricity can be used in your home for many purposes that will save time, work and money. Phone us for an estimate. We will tell you to a cent what it will cost to wire your house complete. For the month of August we will give a special discount of 10 per cent on all house wiring jobs along our established lines.

"IT SERVES YOU RIGHT"

The Ladies' Auxiliary to Pacific College have launched another project for making money for the college. They are saving old papers, for which in these days of war prices there is a ready market. Through the kindness of Mr. Edwards these are being stored in the old C. C. store until time for shipment to Portland. All the ladies of the auxiliary are urged to save newspapers, magazines and old books, which will be called for on or after Thursday of next week.

Some of the readers of the Graphic seem to have gotten the impression from a news note that appeared in the Graphic last week that the Wallace's, of The Fair store, were planning to leave Newberg. This is a mistake. They are interested with their son-in-law and daughter, Mr. and Mrs. Edwards, in a store at Corvallis, and the information the Graphic intended to convey was that this stock was being moved to a new and better location in that city. They say they find Newberg too good a town to move away from.
