One of the largest crowds ever assembled in the college gymnasium attended the Oregon Agricultural College-Pacific College basket ball game played on last Monday night, and although the admission fee was raised to 35 cents on account of the heavy expense of getting the visiting team to come to Newberg, everybody, or at least the home folks, got the worth of their money, judging from the hilarity manifested. Much was expected of the visitors as they were heralded as the champions of the Northwest last year, and this season have been making a clean-up wherever they have gone, and it was a game full of thrills, but the visitors were outclassed at every turn. The home team took the lead early in the game and held it by a safe margin to the end. At the end of the first half the score was 18 to 11 in favor of the home team and at the close 34 to 25. Both teams put all they had into the fray and it was a game well worth seeing. Toward the latter part of the game Bissett, formerly of Newberg, who is known as something of a foot ball bruiser, was rushed in with a hope of stemming the tide, but without avail. Botsford, of Reed College, was the referee. The home team goes to Forest Grove to play the P. U. team on Saturday night and they realize they are to meet a strong aggregation there.

SAVE MONEY! That's What You Can do at PARKER'S

Having bought the store of L. M. Parker, there is one thing we would like to say personally to every buyer in Newberg and vicinity. Since this is impossible we are taking this means to reach you.

WE WANT YOUR BUSINESS

The only way to sell good merchandise cheap is to do it at the least possible expense. The largest and most trying item of expense in retailing today is the credit or charge account method.

It may never have occurred to you that the losses of the credit business must be paid by the customer who pays cash. It is true nevertheless.

It is no longer possible for a merchant to buy goods right unless he pays cash. The old custom of a retailer buying on long time dating is a thing of the past. To buy right we must pay cash. To sell the same goods on long time accounts costs money and must be added to the costs of doing business. Now here is the proposition we want to make to you: Pay us cash for your needs and we will sell you the very best merchandise at real cash prices.

We are going to increase our stock and will be in a position to serve you as well as anyone, and what is more, we will appreciate all the trade you can give us.

The more encouragement we can get in trying out the large sales and small profit idea will be returned to you in good merchandise sold at the lowest cost price.

Let this be your Motto: "PAY CASH, SAVE MONEY" at
