"IT SERVES YOU RIGHT"

OUR WEEKLY CHATS

With the Boys at The Big Hardware Store

Chew your spuds well these days and you'll note a little gold dust taste when they slide down your throat.

Don't take chances on weights in selling your high priced produce. Get one of those 1,000 lb. Fairbanks Special Value Scales for \$17.85. There's no guess work about the weight on the Fairbanks when you weigh it yourself.

Cow's milk is valuable these days and Dan Gilbert says goat milk is worth money. Did it ever occur to you that one of those Sharples Suction Feed Cream Separators might help your cows make you more money? They save housewives lots of work too.

We are agents for Goodyear Tires, Tubes and Accessories. You Ford and auto owners who are looking for 100 per cent tire service jot this down in your note book and don't forget the number.

"Wimmin folks" who are passing up our 5c, 10c, 15c counters these days are cheating the family. Believe it or not we have goods on these specialty counters that we can't put back there again when present stock is gone on account of the high prices prevailing in the world's markets today.

Under the market? To be sure we are, on over 50 per cent of our large stock of goods. We follow the market on nails, rope and such staple commodities that are turning fast—we have to do it for protection—but we can do you good on a lot of stuff in our line today. Get our prices before you spend your money.

Our stock of those little 1½ h. p. Fairbanks "Z" engines is entirely exhausted. We can't get them as fast as we can sell them. A joke, you say? But it's not as the Fairbanks people can't turn them out fast enough to fill the demand. Think of it, a 1½ h. p. magneto ignition for \$45.75 f. o. b. our store. We expect some more in next week.

The bugs and pests will eat you out of house and home if you don't spray. We've got the dope you need and you can't beat a Hardie pump to put it on with. They run easiest and last longest. Watch our "Weekly Special" window. We change it every Saturday. Every display is a "Special Value."

We take pleasure in showing the ladies over our stock of Household Goods. If it's prices and service you are looking for we've got them. Just take time to look for yourself.

It talks, laughs and sings just like the big ones—the little Stew-art phonograph and it costs you only \$5.50 while this bunch lasts. Drop in and hear the music next time you're around.

Cornwell, governor of West Virginia, which is to be held March 5th at Charleston, W. Va. Her brother, Frank Lively, is on the committee for the inaugural program, and is quite prominent in the affair.

KRYPTOKS are fast replacing the old-style bifocals because they are void of lines, seams or humps of any kind. Nobody but the wearer would ever suspect they were anything but single vision lenses.
