Thomas Prince arrived home this week from a trip to his old home in Massachusetts. He spent some time in New York and also in Florida, and came home by way of southern California, visiting his son, Harold, at Venice. When he went away some months ago he remarked to some of his friends that he might not see them again as he was growing old, but he seems to be getting about with quite a sprightly step, still.

Joe Crocker, the veteran Southern Pacific railroad conductor who was formerly known by every man, woman and child who traveled on the Yamhill branch of the road, came out in charge of the special last Thursday evening that carried the Odd Fellows from Sherwood to Newberg, and was given a hearty greeting by many of his former friends. This he seemed to enjoy as much as anyone and remarked that while he had walked the streets of Newberg many times in the past, this was his first opportunity for riding the length of Meridian and First streets in an electric car. Mr. Crocker was on the run between Portland and Dallas by way of Newberg in the days back in the eighties when it was not an unusual thing to stop the train in an open field up the line while some member of the crew went forth with a gun and bagged a bunch of pheasants that were sighted near by. This was in the days of the "accommodation train." Some men are known by the company they keep—Joe was known by his whistle which he used in signaling his crew.

In a short between-trains visit made at Springbrook Wednesday afternoon the writer found Miss Eva Markell at the store doing things—handing out mail, selling railroad tickets, answering telephone calls, telling neighbors where they might buy spuds, going over accounts with the Southern Pacific auditor, buying a bill of goods of a drummer, showing dress goods to lady customers—all this in the space of thirty minutes, and the while keeping sweet under the pressure and meeting all comers with a smile.
