The routine business was disposed of quickly and the rest of the session given to a discussion of plans for the Easter bazaar and eugenic baby contest which will be held on April 7, beginning at 2 p. m. A cafeteria supper will be served and a large attendance is anticipated; judges from Portland will have charge of the baby show.

The Dundecites who risked a "sprinkling" Saturday evening to attend the concert given by the Pacific College Glee Club felt fully repaid for their effort. Every musical number was so well rendered that it is impossible to mention anyone in particular. The several readings by President Pennington were also enjoyed. We trust that the boys will come again and when they do it is to be hoped that the weather will be more settled so that those living in the outlying districts will be able to attend.

On Thursday last F. A. Lehmann invited his wife to go shopping in Newberg. When she returned at 2 o'clock she found a number of her neighbors assembled at her home to do honor to her birthday. Her granddaughter, Miss Katie Lehmann, had arranged the surprise. Mrs. Rhoda Pool brought a beautifully decorated birthday cake. Rev. J. Stanton Moore "dropped in" during the afternoon and sang a birthday song for "Grandma." Grandma responded by singing a song to the music of the victrola. Several songs were sung by the guests and a merry afternoon spent. Refreshments were served and a parting song ended the happy occasion. Those present were Mesdames Dearborn, Greenwell, Holzmeyer, Miller, Billich, Shannahan, Hunter, Poole, Lehmann, Misses Lena Dillinger, Sophie Jensen and Katie Lehmann, Rev. Moore, Mr. Lehmann and little Freda Billich.

Mr. and Mrs. John Carter received a delightful surprise Friday evening, when the guests of Mr. and Mrs. Evans' card party, charivariated them at about 12:30 a. m. Dainty treats were passed around. The whole community wishes Mr. and Mrs. Carter a long and prosperous life.

Mrs. H. H. Peters entertained for her son, Arthur Peters, Wednesday, as a farewell party in anticipation of his departure for Washington Friday. About forty guests were invited, but owing to the extremely disagreeable evening a number were unable to attend. The evening passed most

merrily with games and contests, after which a most bountiful lunch was served by the hostess, assisted by her sons. Those who were absent regretted very much missing such a delightful evening.

The Indian play given Friday evening by the school children, under the supervision of Miss E. Vera Powell, the very efficient principal of the Rex school, was played to a large and appreciative audience. "The Arrow Maker" consisted of scenes taken from Hiawatha, interspersed with Indian drills and songs, and the characters were all cleverly impersonated. Miss Powell as Hiawatha left nothing to be desired, while the demure Minne haha as pictured by Miss Ethel Brown was very lifelike. Merrett Woodworth, as the white priest who came to teach his red brothers, and Miss Gladys Garland, as the old Nikomis, both took their parts very creditably. The little folks all dressed as tiny redmen called forth much applause in their drill and the dance of the squirrel, rabbit, bluebird and robin as given by Austin Sanderman, Roland Schaad, Frank Schwartz and James Hanson each dressed in animal garb was extremely funny and quite brought the house down. Much praise is due both the teachers and pupils in presenting such a play with the limited facilities at hand. A neat little sum was realized, which is to purchase a tennis outfit for the school children.

DAIRY SIRE'S PROGENY TEST

Special prizes will be offered for the dairy sire in Oregon whose daughters produce the most butter fat during a period of 300 days. Any of the dairy breeds can enter the contest at any time between now and Sept. 1st. Application can be made through the county agriculturist or direct to W. A. Barr of the O. A. C. who, with the assistance of committees of the breed associations of the state, drafted the rules and regulations for the contest.

This will be a splendid stimulus to increased production and better cows. It will be the best possible means of determining the propinquity of the sire and his fitness for remaining in the herd. A class is provided for bulls with grade daughters as well as for pure breeds.
