The principal of the school, F. L. Strait, excused the boys and girls of the seventh and eighth grades from the rest of the term of school, realizing that it is imperative that all help in the gardens and fields to grow food for Uncle Sam and the allies.

Friday, May 11, the Farmers' Union have an open meeting at the school house. A debate is featured at this time, question—"Shall we vote for or against the road bond issue?" A lunch will be served at the close of the

The Mesdames K. L. Tangen, Frank Smith, Edith Walton, E. B. Ridgway, Chas. Shire, Wm. Small and Mary Johnson went from the Farmers' Union here on the big "Farm Home Tour" last Thursday. It was a pleasant day and all enjoyed the trip in the autos motoring to the different homes enroute, listening to the speeches, stopping off at Carlton to witness the raising of "Old Glory" to a high mast. There were many patriotic songs and speeches, with powder explosions and sky rockets, thence from there away out to the large palatial home of Mr. and Mrs. Edson where the camera man, Mr. Coffea, took so many snap shots. From there they journeyed to Dell Morgan's home to view the appliances of electricity in the home; thence back to Newberg, with many thanks to the Newberg Commercial Club for a very pleasant and profitable time. On Friday Mr. and Mrs. W. R. Everest and Mrs. Carrie Johnson joined the throng from here on the tour out around Newberg and up to Rex, all reporting a very beneficial and pleasant trip.

Another name has been added to the list of auto owners in Fernwood. Ralph Gill has recently purchased a car.

We are glad to report that Adlai Livengood has so far recovered from his serious sickness as to be able to be out a little.

There are still a good many cases of measles hereabouts. While there have been several quite severe cases, all are reported as doing well.

In spite of frequent rains the farmers are doing some work on the land in this vicinity. In most places the ground is a little wet, but not as much so as would naturally be expected.

Having finished their year's work and being exempt from the examinations the eighth grade of our school is set at liberty and will go to work at manual labor, as there is a scarcity of help on the farms.
