\$50,000 Owners' Contest TO Follow Maxwell's Economy Triumph of May 23rd

Hundreds of Maxwell's on May 23rd made good our claim that a Maxwell will go further on a gallon of gasoline than any other 5-passenger car—now, from June 16th to 30th, we expect 40,000 Maxwells to make as good or a better showing than was made on historic May 23rd

May 23rd was Maxwell Gasoline Economy Contest day all over the United States and Canada.

Fifty Maxwell cars went a total of 1,983.6 miles on a total of 50 gallons of gasoline.

The average gallon mileage of those cars was 39.67. And these were privately owned Maxwells—in actual daily use.

Those 892 cars averaged 27.47 miles per gallon of gasoline. More wonderful records are being received daily.

We could rest our laurels on this great triumph—but we don't intend to do that.

\$50,000 in U. S. Liberty Bonds to be Given Away Next Time

A letter received by Secretary Olcott from L. A. Liljeqvist shows that the game laws of the last legislature, as they refer to Chinese pheasants, are slightly tangled. Three different acts were passed, and Attorney Liljeqvist expressed a desire to know the time of passage to ascertain, if possible, which is controlling. The three chapters of the session laws involved are 297, 340 and 413. On the other hand a number of leading banks have flatly refused to invest in the bonds. As a result the state land board is facing a peculiar situation, and it seems possible, even probable, that the board will be compelled to shut down on loans in the near future and close up the rural credits account for a time, save as to those loans already made, or to be made, out of the small amount of money on hand.
