Hog Raisers Can Lower the Cost of Pork Production

Big profits can not be expected from hogs that cost too much to fatten. Unless a hog's digestion is good he can not earn you a penny as too much high priced grain passes through its system undigested and is wasted.

Can You Afford to Waste High Priced Grain Food?

Under ordinary feeding conditions, an animal will fail to digest about 45 per cent of its grain food—nearly one-half will pass through its system and be wasted. You can improve the digestion and assimilation of farm animals through the use of

INTERNATIONAL STOCK FOOD TONIC

You can save from 20 to 33 per cent of their grain feed. It improves digestion and assimilation, purifies the blood, strengthens the entire system, and keeps the animal in good health and condition.

Good For All Kinds of Live Stock

It will help to fatten hogs, beef cattle and sheep quickly, will improve the milk flow of cows, and will help horses to do more work at a big saving in grain feed.

REPUBLICS IN RUSSIA.

They Existed in Cities and Tribes There in Ancient Times.

The republican idea is neither new nor modern in Russia, and the elective monarchy, was one of its earliest governmental institutions.

Novgorod, prior to A. D. 1100 and for many years thereafter, maintained a sort of republic. The people were warlike and compelled neighboring cities to pay tribute and invited princes to act as the head of their government and military forces. When any prince displeased the majority of the people he was invited to abdicate.

"She could impose conditions on him whom she chose to reign over her," says the historian Bamhaud, speaking of the semirepublic of Novgorod. "If discontented with his management she expelled the prince and his band. According to the accustomed formula, she made a reverence and showed him the way to leave Novgorod. Sometimes to hinder his evil designs, she kept him prisoner, and it was left to his successor to set him at liberty. Often a revolution was accompanied by a general pillage of the partisans of the fallen prince.

"The power of a prince of Novgorod rested not only on his droujina, which always followed his fortunes, and on his family relations with this or that powerful principality, but also on a party formed for him in the heart of the republic. It was when the opposing party grew too strong that he was deposed and popular vengeance exercised on his adherents. Novgorod being above all a great commercial city, her divisions were frequently caused by diverging economic interests.

It was Novgorod which brought the Varangians, Rurik, Oleg and Igor to Russia and thus gave power to the men who were to found autocracy and crush the crude republicanism of the cities and tribes. From oligarchy grew autocracy. Wars weakened the little republics. Gradually they were consolidated, and the power of the people extinguished.—Exchange.

Spared the Culprit.

Alfonso, king of Aragon, attended by several of his courtiers, called on a jeweler to inspect some of his wares. No sooner had he left the shop than the proprietor came running after him and complained that he had been robbed of a diamond of great value. The king returned to the shop and ordered a large vessel filled with bran to be brought and placed on the counter. He then commanded each of his courtiers to insert his hand closed and then withdraw it open. He was the first to begin, and after all had had their turn he asked the jeweler to empty the vessel on the counter. By this means the diamond was recovered and nobody was disgraced.

Peanuts as Food.

The peanut is a mine of riches, containing more protein, or lean meat value, than any other nut known and an immense store of fat, so that as a food it is a rich treasure, but it should be recognized and used as a solid food and not as a between meal tidbit, for it is anything but a delicate or light food. This, however, may be said of all nuts, and one should avoid overloading the system with them, for by this indigestion formed and undeserved reproach to nuts as foods.

Fur Bearing.

"Alaska is noted for its fur bearing animals, such as seals and Eskimos."

This was the answer given at an examination held in Columbus for applicants for teachers' licenses. The examination was conducted by the county school superintendent, and he vouches for the truth of the story. The question was to discuss Alaska and to tell some of the things for which the territory is noted. Fur dealers are somewhat surprised at the answer.—Exchange.

Gargle For a Sore Throat.

The discomfort and pain of a sore throat are greatly relieved by using a gargle. One of the most efficacious remedies for the purpose is boric acid. It disinfects the throat as well as mitigates the distress. The gargle should be a solution prepared from the powdered boric acid—using four heaping teaspoonfuls to a pint of boiling water. When the mixture has cooled it is ready for use. Use the gargle every three or four hours.

Wholesale Coupling.

There is a clergyman in an Ohio city who is very proud of his record as a marrying parson.

"Why, sir," said he to a Cincinnati man who was visiting him, "I marry about fifty couples a week, right here in this parsonage."

"Parsonage!" returned the Cincinnati man, "I should call it the Union Depot."—New York Times.
