OUR WEEKLY CHATS

With the Boys at The Big Hardware Store

We appreciate the way our friends and customers are helping us to clean up our stock of goods after our fire loss.

Monday was the biggest day in the history of the Larkin-Prince Hardware Company, and in giving our trade the benefit of the discounts allowed us by the Insurance Company, we feel that the "black goods" that have left the store have represented good values to our trade and we hope all are satisfied with their purchases.

Work is now in progress on the repair of our building and it won't be long before we will be in position to invite our customers into a neat, clean looking store, with a full stock as formerly carried by us.

The ladies seem to appreciate the values we are offering on our 5, 10 and 15 cent counters—during our big rush three 5-cent articles for 10 cents, three 10-cent articles for 25 cents and two 15-cent articles for 25 cents.

If you need paint—we want to talk to you, but if you want to get the best values make it a point to see us before July the 8th.—Prices are advancing all the time.

Our implement stock is moving lively—and prices are climbing—we advise you to anticipate your future needs just as much as possible as we are positive it will be to your advantage.

We have too many "Special Values" to tell you about them all, but if you need anything in hardware and implements it won't cost you any money to come in and look over our stock and get prices.

We can do you some good on bale ties and binder twine as well as a great many other items in our stock.

Just figure this way—if you need hardware or implements you won't go wrong to talk to the boys at "The Big Hardware Store" and they'll appreciate your business and treat you on the square all the time. pd adv
