The best corn they saw was between Junction City and Eugene, the difference being so marked that Mr. Caldwell says he is going to make further inquiry as to the variety grown there. They were told by a large grower of peaches north of Salem that at a meeting of peach growers held recently it was figured that there would be but about thirty per cent of a crop of peaches in the Willamette valley this season.

NEBRASKA-KANSAS PICNIC NEXT TUESDAY

The committee in charge of the program for Nebraska-Kansas day, next Tuesday, August 21, has asked the Graphic to announce that there will not be a set program for the day, outside of the dinner, which will be ready to serve a little after 12 o'clock. Mrs. Colby and Mrs. McNay will have charge of the tables. There will be one long table exclusively for the children, which will be in charge of Mrs. Henry Stevens.

All former Nebraska-Kansas people are urged to attend, and it is suggested that each family bring a small plate of chicken or meat, along with the other good things that usually find place in a properly prepared picnic basket. Each family will be expected to furnish silverware, cups and a small table cloth. The generous president of the association has promised to furnish first-class coffee for the entire crowd, and it is hoped that some of the former members will not forget to bring some rich cream and milk.

Let every ex-Nebraskan and ex-Kansas in Yamhill and adjoining counties come out and make this a patriotic day, and come prepared to "say something" if the spirit moves. The 21st will be the anniversary of Quantrill's raid at Lawrence, and it is hoped there will be some interesting reminiscences of that historic event.

The committee hopes to arrange for a band which will add much to the occasion. A donation of golden-rod and sunflower blooms will be appreciated. Bring them along with your lunch baskets.

Should the weather be unfavorable a hall will be provided.

Don't forget to register immediately after reaching the ground or hall.
