NEWBERG OREGON

A SUCCESS SECRET.

Governor Bilbo said at a dinner in Jackson:

"The man who succeeds easiest is the one who works on the queer, the funny, in human nature.

"Like the chap who turned up at Palm Beach with a new 12-cylinder car, you know.

"'Oh, I've struck it rich,' said he. 'I've written a book called "Hints to Beautiful Women."'

"'Good!' said the reception clerk, as he led the newcomer to his locker. 'And all the beautiful women are buying it, eh?'

"'No,' said Newrich. 'All the plain ones.'"

WAR YARNS.

"Have you any war yarns?" asked the lady entering the department store.

"Surely, madam," replied the floorwalker.

"In which direction will I find the proper department?"

"Do you want them for reading or knitting, madam?"

WANT CAVE NATIONAL PARK

Natural Wonder of Kentucky Does Not Draw Patronage It Deserves Under Private Management.

Mammoth Cave should be made a national park. Now is a good time to take the necessary action. The federal government should be able to acquire the property, upon reasonable terms. The management of the cave, asserts the Louisville Courier-Journal, has been such as to suggest that an adequate hotel will not be built at once, if at all, but even if it is the intention of the managers of the estate to replace the hotel that has been burned, the history of the cave as a private property is a history of failure to induce the number of visitors which the importance and interest of the natural wonder warrant. As a national park, improved by good roads, provided with a good hotel, Mammoth Cave would be seen by ten times as many persons as see it under present conditions.

The area surrounding Mammoth Cave is well forested, picturesque, well supplied with streams and in every way suitable as a national park. Kentuckians should urge their representatives in congress to interest themselves in securing a sufficient appropriation to acquire the cave and enough ground around it to make a reserve representative of an exceptionally fine section scenically considered and now almost as primitive as it was when Mammoth Cave was discovered.

LIKE FATHER, LIKE DAUGHTER

Lady Mackworth Is Regarded as Lord Rhondda's Right-Hand Assistant In Wales' Management.

One of the most remarkable women of the day is the daughter of a remarkable man, for Lady Mackworth, director of national service for Wales, says London Answers, is the daughter of the food controller, the great Welsh coal operator, Lord Rhondda, one of the outstanding figures of Mr. Lloyd-George's "business government."

"Like father, like daughter" is true in this case, for Lady Mackworth is a director of more than a score of big businesses, and actually chairman of several. She certainly proves that women are not devoid of business acumen, as some would argue, and that they are capable of doing big things in the business world.

With her, business, like charity, begins at home, and it was in connection with her father's great business concerns that she first learned the ropes and got to know her way about the intricate channels of business life.

RAISED A QUESTION.

In his distress a needy man borrowed $25 from a wealthy acquaintance. The same day he was discovered by his creditor in a restaurant eating a dish of salmon with mayonnaise. The creditor reproached him in these words: "You borrow money from me and then order salmon with mayonnaise. Is that what you needed the money for?" "I don't understand you," responded the debtor. "When I have no money I can't eat salmon with mayonnaise. When I have money I mustn't eat it. Well, then, when shall I ever eat salmon with mayonnaise?"

DOWN AT PALM BEACH.

Bess—What do you think of that for a tightwad? Jim has paid his hotel bill in advance for fear he'll spend all he has on us girls.

DUNDEE

Do it now! How many times have you said to yourself, "I will learn the words of 'America,' 'The Star Spangled Banner,' and 'The Battle Hymn of the Republic,' so that the next time I hear them sung by an audience I can take part." You will have an opportunity to sing them at Community Hall on the evening of Saturday, February the sixteenth.

Both Clocks Wrong.

Champ Clark has made an addition to the list of world-famous epigrams. In the closing minutes of the war session, the house roared its desire for Champ to make a speech. Banging the gavel, the speaker pulled out his watch, studied it for a moment, and then remarked: "There are two clocks in this house, and both of them are wrong."
