Enos Ellis who returned home last week from his trip to Montana with two car loads of cows says he ran into a temperature of 25 degrees below zero in the mountains, which he found to be somewhat disagreeable for handling stock. He says it is apparent that the Northern Pacific railroad is doing the bulk of the heavy freight traffic across the country, there being train after train of 90 cars drawn by two mammoth engines headed eastward.

Paul Brissenden, a former instructor in Pacific College, spent a few days in Newberg last week renewing old acquaintances after having been away for seven years. For the past few years he has been connected with the Department of Labor at Washington and recently spent considerable time at Butte, Montana, where he said there was considerable unrest among the members of the labor unions. He made an interesting talk at the college on Friday.

J. T. Crews, who is now living on a part of the Ornduff farm on Chehalis Mountain, north-west of Newberg, together with some enterprising farmers in Washington county, have had a road survey made which gives a very easy grade from Laurel to Newberg. Road petitions have been signed by all the resident land owners, and prospects are favorable for getting a very important road leading to Hillsboro and Forest Grove. The old road has some grades that are impassable for loaded vehicles. The community through which this road of four or five miles, will pass, has been waiting for many years for a few rustlers to take the lead and help to open up and improve a large and rich country which is about midway between Newberg and Forest Grove.

Chas. Bolen, who had just recently been honorably discharged from the coast artillery corps at Fort Canby, Wash., was set upon and brutally beaten by three men, believed to be I. W. W., as he was on his way to seek work at the Spaulding sawmill last Friday evening. The three men came up on a boat with Bolen from Portland, and in conversation with them Bolen told them he had come to Newberg to look for work. The men said they did not believe in work and were generally unfriendly. Bolen had sent \$40, the bulk of his money, to his widowed mother just the day before, but the thugs robbed him of what small change he had. Roy Bremmer, who is vested with a United States marshal's authority, went to Salem Saturday and will be on the lookout for the men.

Mr. and Mrs. A. T. Blair have sold their home out north of Newberg to J. C. Lemon whose farm joins the Blair place on the east. They will probably move into Newberg, though they have the privilege of remaining on the place through the season if they desire to do so. This was the home of Wm. Hobson, deceased, who was the father of Mrs. Blair, and who will be remembered by all the older settlers in this community. Here it was that the writer ate his second meal in this community which was in September, 1880. While the country was settled much earlier than that there was much clearing of land being done in the way of burning brush, piling and burning poles and it all seemed new and strange. Of country roads, such as they were, there were few, the principal one being the main Portland road. A new road had been cut out through the thick timber leading to Wynooski landing on the river, another leading out toward West Chehalis and one from the Portland road toward Springbrook. Mail came in three times a week by horseback from Portland and public school was being taught in the upper rooms of a private house. Some changes have been made in this section in the intervening years.

How Much Would You Give to Save A HUMAN LIFE?

YOUR COUNTRY is not asking you to give in this case, but to BUY a security that is worth 100 cents on the dollar, to help save a life and to help the United States to win the war. Your government is not asking you to buy impossible amounts at one clip but does ask you to buy 50 cents worth a day or "two bits" worth of war stamps a week. Let your little boy and little girl buy a "thrifty" stamp every week and impress upon them the importance of saving and at the same time inspire them with the thought they are actually doing their "bit" to help beat the world's worst enemy.

"For 25 cents you will receive a U. S. Thrift Stamp and a card to paste it on. The card has spaces for 16 stamps, costing you \$4. When it is full, exchange it—with a few cents additional in cash—for a War Savings Stamp, for which the Government will pay you \$5 January 1, 1923.

"These War Savings Stamps are as safe as U. S. Bonds. They are the safest investment in the world because they are backed by the entire resources of the country, and the profit you make on them amounts to 4 per cent interest, compounded quarterly, on January 1, 1923.

"Every time you have money you don't absolutely need buy a War Savings Stamp. Every time you have a quarter you can possibly spare, buy a U. S. Thrift Stamp."

Your country needs your help.
