The fact that the Spaulding Logging Co. has sold something like 1,200 cords of mill wood for spring and summer delivery, is pretty good evidence that the people are taking time by the forelock with the view of being fixed so they may not be caught short of fuel next fall and winter.

Rev. and Mrs. Fred E. Carter, Mr. and Mrs. W. E. Crozer and C. S. Woodward went to Salem last Sunday afternoon and remained over until Tuesday afternoon in attendance at the Layman's Missionary Conference. Jesse Edwards received a letter a few days ago from his grandson, Ewart Edwards, who is stationed with an aero squadron at San Antonio, Texas, as an ambulance driver. He has been promoted to the rank of Corporal. He is out with a big white car when machines are flying, and in case there is a fall of a machine and its occupants it is his business to go to the scene at full speed and rush the injured, if any, to the hospital.

A parent who is a patron of the Newberg high school, has said to the Graphic that he thinks that rivalry between the Newberg and McMinnville high school basket ball teams has developed to such a stage that a check should be called by the respective faculties and boards of the two schools. He is a believer in clean sport and likes to witness the exuberance of youth, but has no sympathy with the rough neck tendency that is liable to develop when rivalry is intense, unless it is properly curbed. He says, too, that he thinks older heads among the rooters on both sides are largely to blame for the intensity of feeling developed.

Allan, of Dundee, received a copy of a Des Moines, Iowa, newspaper a few days ago which gave an account of an engagement his son, Alfred, took part in on the French battle front recently, in which his captain and a number of his comrades were killed. He is a member of an Iowa regiment, which accounts for special notice being given of the event in an Iowa paper.

The attendance of Attorney D. P. Price as one of the judges of the debate held at Wood-Mar Hall on last Saturday night, served as a reminder of the days when he was one of the live wires among the students of P. C. He found them at the O.-W. R. & N. railroad company's freight depot in the city and the delay in transfer to the Southern Pacific was accounted for by a statement of the officials to the effect that the army and navy and shipyards had drawn on their forces to such an extent that it was impossible to get freight moved as it should be.

More than 225 Newberg people forgot all about conservation of resources, on Tuesday evening, and consequently filled three coaches that were headed for the county seat, carrying the high school ball team that had been victorious in a game on the home floor with McMinnville high school team on last Friday night. They were out with the slogan, "Get Mac's Goat," and it was done. It is said that enthusiasm ran so high that the work of two policemen was required to maintain proper equilibrium during the progress of the game.

Resolved, That Railroads in the United States engaged in interstate traffic should be owned and operated by the Federal Government. This was the question that was very ably debated at Wood-Mar Hall on last Saturday night by four young men. Irl McSherry and Roger Elder, representing McMinnville College, took the affirmative, and Ezra Hinshaw and Harold Lee, representing Pacific College, presenting the negative, the latter winning a unanimous decision of the judges. It was a splendid presentation of the question, which is just now a live issue, the young men showing by their argument that they had made a close study of it. The judges were Attorney A. O. Condit, of Salem, and Attorneys D. P. Price and Frank H. Hilton, of Portland.

At the close of the basket ball game on last Friday night, Miss Florence Bassett, domestic science teacher in the high school, entertained the home team and a few others. Music was an enjoyable feature of the evening and much merriment was occasioned by the writing of a "Round Robin" letter to former students, namely, Raymond Bassett, Earl Moore, Fred Horning, Harry Rockwell and Elmer Thomas, now in France, to tell them that "we got Mac's goat." How Much Would You Give to Save A HUMAN LIFE?

YOUR COUNTRY is not asking you to give in this case, but to BUY a security that is worth 100 cents on the dollar, to help save a life and to help the United States to win the war. Your government is not asking you to buy impossible amounts at one clip but does ask you to buy 50 cents worth a day or "two bits" worth of war stamps a week. Let your little boy and little girl buy a "thrift" stamp every week and impress upon them the importance of saving and at the same time inspire them with the thought they are actually doing their "bit" to help beat the world's worst enemy.

"For 25 cents you will receive a U. S. Thrift Stamp and a card to paste it on. The card has space for 16 stamps, costing you \$4. When it is full, exchange it—with a few cents additional in cash—for a War Savings Stamp, for which the Government will pay you \$5 January 1, 1923.

"These War Savings Stamps are as safe as U. S. Bonds. They are the safest investment in the world because they are backed by the entire resources of the country, and the profit you make on them amounts to 4 per cent interest, compounded quarterly, on January 1, 1923.

"Every time you have money you don't absolutely need buy a War Savings Stamp. Every time you have a quarter you can possibly spare, buy a U. S. Thrift Stamp."

Your country needs your help.
