Of interest to the berry growers in the neighborhood is the information that H. E. Crowell, of the Valley Canning Company, has made arrangements with P. D. Frost to receive all fruit intended for the cannery and hold it until called for by the cannery

trucks. This will save much time and be more convenient for the farmers.

G. V. McClure left Tuesday for Portland where he will enter into training for work with the Y. M. C. A. His family are moving this week to Newberg where Mr. McClure expects to have charge of a bunch of boys who will help the berry growers out this season. The Dean home which they vacate, will be occupied by F. D. Frost and family.

Mr. and Mrs. F. D. Frost entertained Sunday, Mr. and Mrs. H. A. Burgett, Mr. and Mrs. M. N. Repp, Mr. and Mrs. R. J. Wilkenson and Mrs. Gilbert, of Portland. The revival meetings at the Christian church closed Sunday evening. Dr. Dunn and Mrs. Stevenson are faithful workers, and we are sure their labors have been greatly blessed, both to the church and surrounding community.

The Red Cross sewing was quite well attended last Thursday. The following ladies were present and worked faithfully, but we still need the help of others, as the Red Cross is so in need: Mesdames J. Powell, Groff, Olsen, Wheeler, Scherf, Jones, Brouillette, Hobson, Walters, Bryant, Misses Roxie Hobson, Irene and Agnes Powell.

Rev. and Mrs. J. Stanford Moore are rejoicing over the arrival of a little daughter, June Christine.

Mesdames Tangen, Newhouse and Smail and Miss Smail from Chehalem Center, visited Dundee's Red Cross regular sewing day on Tuesday.

The Red Cross egg fund amounted to about eight dollars for the first week. The exact figures will be printed next week. The birthday and special fund box now contains \$10.00; \$5.50 of the amount being the Red Cross share from Prof. Powell's entertainment.

Those who attended the entertainment given at Community Hall on Saturday evening are enthusiastic in their praise of Prof. Powell and his singing pupils. Prof. Powell has been a teacher of music for sixty years, and for the past forty years he has been studying methods and evolving a new system of teaching which works out in practice splendidly. The particular point that Mr. Powell wished to prove on Saturday was that sight singing can be taught in the first four years of school without the purchase of music books. A small card, about six by eight inches, contains all the music necessary for the first year. All present were entirely satisfied that Prof. Powell proved his point. County Supt. S. S. Duncan was present and made a brief address. He emphasized the power of music in the formation of character, the duty of a Christian to show forth happiness and express it in song, and spoke feelingly of the power of education in the making of loyal citizens. He congratulated Prof. Powell in having dedicated his life to the uplift of humanity. Mr. Duncan touched briefly on the coming Red Cross drive, saying that not much need be said in Dundee on that subject as this community had always gone way over the top in every drive and is particularly active in all Red Cross work. The proceeds of the evening Prof. Powell divided between the Red Cross, the Victrola fund for the school and the Dundee Woman's Club.

CHEHALEM CENTER

Mrs. Frank Johnson and little daughter visited the home folks over Sunday.

Alphonse Vanderbeck, Mrs. Wm. Bowley, Mrs. Robert Nussom, Miss Petsy Bowley, Cyril and Bobbie Vanderbeck, all of St. Louis, were Sunday visitors at the home of J. B. Vanderbeck. The ladies of the church met

Tuesday, May 7, at the home of Mrs. Elwood Hobson and knotted off two quilts, thus completing eleven quilts and contributing fifteen dollars to the sufferers in France.

On this Friday evening Miss Mildred Wills and her class of young men contestants will be present at the school house. This will be well worth hearing, so all come out and help in the fund for soldiers and sailors.

Girls and ladies, have you got that cap and necktie made of the same material for next Monday evening? After the Parent-Teacher meeting there will be an ice cream and necktie social. Mr. Dow, of the Newberg Enterprise, will present our new service flag and give a talk on Red Cross work, and there will be good musical numbers, all down on the program. Everybody come out and help boost for the Red Cross benefit.

The Red Cross ladies met last Wednesday in an all day meeting with nineteen present. They finished nine hospital shirts out of twenty-five on the way. Mrs. Fort and others finished the twenty-five next day. This completes seven and one-half dozen made in thirteen meetings. There were twenty-one pairs of socks knit, Mrs. S. W. Newhouse knitting thirteen out of the twenty-one. Mr. and Mrs. Newhouse each have nephews in the army and they are certainly doing their bit in the way of buying Liberty bonds, doing Red Cross work and on food conservation, etc. They realize and appreciate, as do a number of others, the great sacrifice of time, blood and lives the boys are giving that we may all enjoy life and freedom here at home. At our meeting Mrs. J. Fort and Mrs. Etta Shire resigned as chairman and vice chairman, they deserving a rest as officers. Mrs. K. L. Tangen was elected to fill the office of chairman, Mrs. Jenny Post as vice chairman. The Auxiliary has contributed in free will offerings and programs \$61.20 up to date.

"Yes, sir; yes, sir, three bags full. I'm also hoarding sugar and salt," she added.—Louisville Courier-Journal.

PURITY DISTINGUISHES OUR DRUGS

as the positively reliable kind. Why not bring your prescriptions to the PARLOR PHARMACY, when you know that is the one place in town that would rather go out of business than serve impure drugs. Only registered pharmacists of experience are allowed to compound medicines here. Try us and save money besides.

E. W. HODSON, Pharmacist.

W. C. Finch, formerly of this neighborhood, who is now located in Portland, visited the first of last week with his sister, Mrs. Frank Russell.

"Education, the Doorway to Service," is the interesting C. E. topic for next Sunday. Ralph Baker will lead the meeting. Young people are invited to come.

Another of our good neighbors has yielded to the lure of the "horseless vehicle" as is evidenced by the fact that A. A. Noble has been driving a Maxwell car for some time.

An unusually good attendance was reported at Sunday school last Sunday, the occasion being Mothers' Day. Prof. Shambaugh, of Pacific College, had charge of the preaching services and gave a sermon of especial interest to the children. He will be here again next Sunday.

The work of the school year at West Chehalem, school district No. 10, will be brought to a close Wednesday, May 22. Elaborate preparations are being made by the pupils, under the leadership of Mr. Roe, principal, and Miss Hevland, primary teacher, for a program which will justify the attendance of all who can attend. Things will commence to happen at 3:30 p. m. when the West Chehalem base ball boys will lock horns with the Chehalem Center team. Then there will be various other competitive athletic features—everything from a girls' tug-of-war to a boys' shoe race. These will occupy the time until 6:45 p. m. when lunch will be served. An excellent program has been arranged to begin at 8 o'clock, which will begin with school talent and close with an address by Prof. Brumbaugh, of O. A. C. Everybody will be welcome. Come early and stay late, and last—but by no means least—bring your lunch which, by the way, is to be meatless.

FEEDING CATTLE FROM CARS

Beet Pulp Given to Animals While They Are Still on the Tracks, to Save Fodder.

The desert cattle ranchers of Arizona and New Mexico have learned, says the Popular Science Monthly, that to raise cattle is one business, and to fatten them is another. For this reason, they ship their cattle to California, where sugar beet pulp is obtained in abundance. One factory is located near the fields where the beets are grown. The cattle are turned into this field after the beets are harvested.

Under the fence is placed a trough which projects outside of the fence just enough to allow the beet pulp to be thrown into it from the cars. The cars run on tracks from the factory to the field and follow the fences around the corral. More space is thus obtained for the beef cattle to feed, and there is but little waste of fodder. In these war days the cattlemen are learning to conserve stock food, as the cattle themselves are conserved for our use.
