Moore, the a councilman from the first ward, made an extended tour of the Willamette valley last week by the Ford route, going as far south as Eugene and Crescent City, and on the return making side trips to Lyons and Mill City. At times this season the stream there has been packed for a mile below the rapids with Steelhead salmon and now the Royal Chinook are coming—and all these fish have passed up the Willamette by Newberg on their journey. Mr. and Mrs. Moore say they found the roads in Linn and Lane counties to be in fine condition, and crops, especially fall sown wheat, looking promising in many sections. As for vetch, they say they saw but one good looking prospect, the aphid having gotten in their work on this hay crop all along the route.
