IT IS

good business for you to "shop" these days on any class of merchandise—There are no standard prices on account of the daily change of markets.

We do not claim to have all the "bargains" but we believe we have our share and are placed in a very advantageous position on account of our large stock, and the daily arrival of delayed shipments of goods ordered from factories some 6 or 8 months ago.

For instance—last week there came to us quite a large shipment of **LISK heavy tin-ware, including Boilers, dishpans, milk pails, etc.**

an order we placed with Factory a long time ago, but on account of war conditions were not delivered sooner. What does it mean?

It simply means that we can put this shipment of goods out to our customers at least 20 per cent under today's market prices. No one doubts the quality of the "Lisk Ware" and should you be needing something in this line make tracks for "The Big Hardware Store."

It costs you nothing to look at our stock, and we are always glad to have you make inquiry for anything in the Hardware and Implement line before you buy—it will do no harm and we might save you some money—who knows!

ALUMINUM SPECIAL

A very few of these Life Time Vegetable Cookers at \$1.68—the lid went come off when you drain the water off the vegetables and a nice size kettle for daily use. Worth at least \$2.50 on today's market.

JUST A TIP

We are expecting to receive advance in prices on plows, harrows, drills, etc., any day and some of our customers are anticipating their needs 60 or 90 days ahead of time and placing orders now for such implements as they will need this fall. No chance to lose and all to gain the advance is bound to hit us.
