The Red Cross sewing meeting on Tuesday was well attended and fourteen little dresses for the Belgian and French relief were made. This will end the work of the Dundee auxiliary until after prune harvest.

The community sing and ice cream social at Park Hill Home last Friday evening was one of the most pleasant occasions that Dundee has experienced. Rev. Bates and Professor Anderson had charge of the singing and they were ably assisted by some of Newberg's best vocalists. The Ladies' Aid Society of the M. E. church, which had the affair in charge, sold several gallons of Dundee Maid ice cream, pronounced by all present to be the best of the season. Several inquiries have been heard since the social as to whether or not the sings are not to be a regular feature in Dundee.

Sixty-eight cents per pound for blackberries we believe is the record price for that particular fruit. That is what a bucket of Himalaya Giants brought at the Community Sing on Friday evening. A thirteen pound bucket of blackberries was auctioned off by Rev. Bates for the benefit of the Red Cross and was bid in at \$5.50 by a member of the bridge crew stationed at Dundee. The buyer gave back the berries and they were sold again at the same price, then again for \$1.75. Five dollars was offered for another bucket just like that, making \$17.75 for twenty-six pounds of berries. The first bucket of berries was finally presented to one of the young high school girls present "to can for her hope chest." She followed instructions, so a bountiful supply of our great American dish, pie, is in store for some fortunate young man.

MONSTROUS IDEA IN GERMAN MIND

Treachery, Murder, Barbarity,
Anything, Praiseworthy if for
Prussia's Gain.

Abominable System That Must Be
Overthrown if the World is to Be
Worth Living In, Regardless
of the Cost.

This I have seen. I could not believe it unless I had seen it through and through. For several weeks I lived with it; I went all about it and back of it; inside and out of it was shown to me—until finally I came to realize that the incredible was true. It is monstrous, it is unthinkable, but it exists. It is the Prussian system.—F. C. Walcott.

At a conference of field men of the United States food administration held in Washington, F. C. Walcott pictured conditions as he had found them in the countries invaded by German arms. Mr. Walcott served with Mr. Hoover on the Belgium relief commission when this nation was attempting to feed the starving civilian population of Belgium, Poland and northern France. In his address he had pictured such conditions as he said he could not believe unless he had seen the situation through and through, and had lived with it for weeks. He showed these terrible conditions to be the result of deliberate plans on the part of official Germany, and in summing up he said:

"Such is the German mind as it was disclosed to me in several weeks' contact with officers of the staff. Treaties are scraps of paper, if they hinder German aims. Treachery is condoned and praised, if it falls in with German interest. Men, lands, countries are German prizes. Populations are to be destroyed or enslaved so Germany may gain. Women are Germany's prey, children are spoils of war. God gave Germany the Hohenzollern and together they are destined to rule Europe and, eventually, the world—thus reasons the kaiser.

"Coolly, deliberately, officers of the German staff, permeated by this monstrous philosophy, discuss the denationalization of peoples, the destruction of nations, the undoing of other civilizations, for Germany's account.

"In all the world such a thing has never been. The human mind has never conceived the like. Even among barbarians, the thing would be incredible. The mind can scarcely grasp the fact that these things are proposed and done by a modern government professing a Christian government in the family of civilized nations.

"This system has got to be rooted out. If it takes everyone of us, this abomination must be overthrown. It must be ended or the world is not worth living in. No matter how long it takes, no matter how much it costs, we must endure to the end with agonized France, with imperiled Britain, with shattered Belgium, with shaken Russia.

"We must hope that Germany will have a new birth as Russia is being reborn. We must pray, as we fight against the evil that is in Germany, that the good which is in Germany may somehow prevail. We must trust that in the end a Germany really great with the strength of a wonderful race may find its place as one of the brotherhood of nations in the new world that is to be.

"The responsibility of success or failure rests now upon our shoulders; the eyes of the world are anxiously watching us. Are we going to be able to rise to the emergency, throw off our inefficiency, and prove that democracy is safe for the world?"

In the above statement Mr. Walcott has described a condition that must be changed if America, if the world, is to remain a "fit place to live in." And the only way by which this change can be effected is the defeat of German arms in this war. Nothing good, nothing but evil, can come out of Germany, so long as the German people are controlled by a military autocracy, and the German people cannot be made to realize this until this autocracy is crushed. The spirit of militarism that has made of the Germans a robber and a murderer nation must be utterly crushed if the world is to remain free, and to accomplish this those of us who cannot fight in France must lend our support to our men who are fighting for us.
