

A FREE STEREOPTICON LECTURE

Evangelist B. J. Gady, who has spent twenty years as a missionary in the South Sea Islands, will give a stereopticon lecture in Duncan's hall, Newberg, Saturday evening, February 15, at 7:45.

This will be next to taking a sea voyage over thousands of miles of ocean depths, and visiting many groups of islands, as well as New Zealand and Australia, but without suffering the inconvenience of seasickness. One may see how bananas and other tropical fruits grow, which in the islands are fed to fowls and domestic animals, and where it takes days to teach a horse to relish oats or barley. Tattooed islanders are shown, cannibals, snake eaters, black trackers, head hunters clothed in human scalps, natives walking over hot stones in their bare feet, etc.

Other views show what Christian missions are doing for these people, and changes that have been wrought in many places. Seeing these views will help our youth to better appreciate home and school privileges.

South Sea Island songs will be sung, and an offering will be taken. Everyone is invited.

REX

R. R. Shreve, of Lake Grove, was a brief Sunday visitor.

Mr. and Mrs. A. L. McCaffree are moving into the Cruckshank house.

Mrs. F. D. Frost and daughter, Estelle, visited friends in Portland Tuesday.

Miss Lorena Keeney, of Newberg, was a week end guest of the Misses Ous and Esther Gustaf.

Mr. and Mrs. Elmer Wright and Mr. and Mrs. C. Cruckshank were Portland visitors Saturday.

C. W. Noel, of the 364th Artillery, recently mustered out from Camp Lewis, spent the week end at the Jack Sawyer home en route to Boise, Idaho.

The James Kane family and Mr. and Mrs. C. H. Miller are moving from Newberg into the Dean home, and are being welcomed back to the neighborhood.

C. Cruckshank and family left Tuesday for the Ray Bros. farm where Mr. Cruckshank will work the coming spring and summer. He sold his tract of land at Rex to Jack Sawyer.

MOUNTAIN TOP

J. A. Brunson and son, Howard, motored to Portland and back last Friday in the Chevrolet.

Homer Ramsey has received his discharge at Lake Charles, Louisiana, and has returned home.

There was no Sunday school last Sunday, but there will be preaching both morning and evening next Sunday.

Wayne Brunson and family were Mountain Top visitors last week. They returned to their home at Kingston on Thursday.

Nick Baron received his discharge from Camp Lewis, where he has been stationed since last July, and returned to Mountain Top, arriving on Thursday of last week.

The Y. P. A. is planning a Valentine social to be held at the Ernest Giesher home on Friday night of this week. Everyone is expected to bring a Valentine for the Valentine Box.

The home folks recently received several letters and souvenirs of France from Royce Brunson. He has been in France since August, but was in none of the battles. Word was also received from Myron Bryan, who is now stationed in Germany. He also has been in Europe since last August.

APPEAL IN HERALD OF WILD BIRDS BY W. L. FINLEY

Editor Graphic, Dear Sir—Theodore Roosevelt was the most far-sighted President this country ever had in saving our wild birds from extermination. He said that wild birds were absolutely necessary to future agricultural development in the United States because they are the natural check upon insects and other pests that take \$200,000,000 annual toll from the farmers.

He saw the complete extermination of the myriads of wild pigeons of eastern North America, because these birds were not protected on their breeding grounds. The common people were thus deprived of a food supply.

August 18, 1908, President Roosevelt issued a special proclamation creating Malheur Lake as a Federal Wild Bird Reservation. It is recognized as the greatest wild bird refuge in North America. It is one of our greatest memorials to Theodore Roosevelt.

Promoters under the guise of increasing agricultural land in Harney county, have a lobby at Salem proposing to drain this alkaline lake and use the alkali-crusted soil to lure new settlers to Oregon. Their completed plans to destroy Malheur Lake Reservation are now before the State Land Board for action.

The Department of Agriculture at Washington has charge of this area and since 1908, has paid wardens to protect it. Oregon is morally bound not to commit the commercial crime of destroying it. Malheur Lake Reservation is as wonderful as Crater Lake, Mt. Hood or the Columbia Highway. It is an asset to Oregon and the United States as one of the last great wild fowl nurseries.

I appeal to you and to your readers to help us pass House Bill 376, ceding jurisdiction of Malheur Lake to the Government and letting it continue its charge. Governor Withycombe recommended this in his message to the legislature. Oregon is a great out-of-door state and as such is attracting people from all over the United States. If any of your readers are interested I should be glad to hear from them.

Sincerely,
William L. Finley,
State Biologist.

ALL ROADS LEAD TO NEWBERG

Salem, Oregon, February 12—A tentative paving program for Marion county, contemplating the expenditure of \$1,000,000, was announced last week by the county court after a conference with business men of the Mount Angel district. The agitation was begun when a delegation from the north end of the county waited upon the state highway commission early during the legislative session, and the conference yesterday fanned the smoldering sentiment into flame.

A chain of paved highways connecting all incorporated cities and towns of the county is the plan. This would involve the laying of hard-surface pavement on eight or nine miles of road, beginning at Newberg, across the river in Yamhill county, and touching at Donald, Aurora, St. Paul, West Woodburn, Mount Angel, Scotts Mills, Silverton, Turner, Marion, Stayton, Wheatland, Sublimity, Macleay and Rosedale.

Taxpayers from every district in the county will meet in Salem next Saturday for further discussion of the project, and letters are being sent out today apprising the public of the meeting. If the sentiment of the meeting proves to be favorable, district meetings will follow and a bonding election will probably be called later.

It is said that if the plan materializes it will be the first instance in the state of a county bonding itself for road improvement primarily for its own benefit and covering roads aside from the main traveled highways. Several counties have issued bonds for improvement of trunk lines.

FERTILIZER VALUE SHOWN

The Cattaraugus County (New York) Farm Bureau conducted 15 fertilizer tests last year, using plots with lime alone, lime and acid phosphate, and acid phosphate alone. Check plots were used for determining results. Where lime and acid phosphate were used there was a profit of \$15.94 an acre, and where acid phosphate alone was applied there was a profit of \$15.42 an acre. Where lime alone was used there was a loss of \$1.56 an acre, but the next year's hay crop should make this loss and pay, in addition, from 150 to 200 per cent on the investment. In this county 31,000 acres of oats are grown annually. If 25 per cent of the oat-growing farmers would adopt the practice it is believed they would gain \$87,265 a year.
