On last Wednesday evening the "Willing Workers" Sunday school class gave one of its members, Miss Carrie Hobson, a farewell party at her home. What is pronounced as the prettiest entertainment ever seen in Dundee was given by the Dundee Woman's Club on Saturday evening. Meyer gave the reading and various members of the club and young people with every detail of costume and stage setting correct, took part in the production of the pictures. The scenes were accompanied by music of the periods. After the program an auction of lunch baskets created the usual fun and surprises that come with such a sale. An informal dance followed and all present expressed themselves as having had one of the most pleasant of evenings.

THE ROAD TO SUCCESS

With the steady influx of new business this year, business men will have need for steady advertising. You cannot sell goods without first letting the public know that you stock them—and the only effective method of informing the public is by advertising. Here is a little thing worth reading now and then:

KEEP IT UP

One step won't take you very far. You've got to keep on walking; One word won't tell folks what you are.

You've got to keep on talking; One inch won't make you very tall. You've got to keep on growing; One little "ad." won't do it all. You've got to keep 'em going. Fourth Estate.

FAMOUS INDIAN PHOTOPLAY STAR AT THE BAKER

Princess Mona Darkfeather, the famous Indian screen star, noted for her wonderful beauty and artistic ability, will appear in person, at the Baker theatre on next Wednesday and Thursday, March 26 and 27. She has a deep contralto voice and will sing a number of songs. Miss Darkfeather will wear an Indian buckskin dress made by herself, and containing over five hundred rattle snake rattles with a combined age of three thousand years, and which took over four years to collect. Besides this wonderful and novel dress, she wears numerous silver bracelets given to her by several prominent Indian chiefs. She also has the finest private collection of Indian beadwork and silver jewelry in America.

Miss Darkfeather is considered to be the greatest Indian, if not the most beautiful, appearing before the public, besides being an accomplished musician. She has visited or lived with most every tribe of Indians in the western country and Alaska, and went on a hunting trip with Chief Innes of the Moose Hides in the Yukon country, and bagged her first moose, and the head now adorns the wall of her bungalow.

Princess Mona Darkfeather comes from one of the oldest and best

families in the state of California, her father being the owner of the first bank in the city of Los Angeles. She is one of five heirs to the city of Puente, California, considered to be worth over six millions, and which is now in the courts. Miss Darkfeather is always glad to meet the public in person and to advise with them regarding the inner workings of the motion picture industry.

FAMOUS THE WORLD OVER

To extol the virtues of Royal Baking Powder is like gilding refined gold. This famous product had its first introduction on the market about fifty years ago and is now a household word all over the world. It goes into millions of homes and is known and used in every country under the sun. The Kaffirs in South Africa and explorers at the North Pole find it equally good and time resisting. It has come to be regarded as an indispensable adjunct to the most up to date as well as the most primitive kitchen, and although many other baking powders have come upon the market, Royal holds its place as the highest grade baking powder that it is possible to produce.

The distinguishing feature of Royal Baking Powder is that it is made from Cream of Tartar, which is derived from grapes, a delicious wholesome fruit. Constant vigilance and determination of the manufacturers to turn out the best article of its kind that capital, brains and scientific skill can produce has won the endorsement of the most eminent chemists, physicians and dietitians the world over and made Royal Baking Powder relied upon by countless numbers of women to make pure and wholesome bread.

Idea for Liberty Monument.

A Washington man proposes that as the United States was in the war 564 days, a Liberty monument to the members of our heroes be erected at the capital, one foot in height for each day, making it 564 feet high, with the names of all who gave their lives engraved on bronze tablets, to be placed in the interior of the monument.
