Miss Moore, who assumes the management of the hotel, is a young woman of excellent character and attainments and the hotel business is not entirely new to her since she has been employed about the kitchen and dining room at the Imperial for some time.

PROPOSED JITNEY LICENSE OPPOSED

As to the question, should the city council of Newberg place a heavy license on all jitneys and busses operating in Newberg, I would say, should they put a prohibitive license on same it will place many hardships on citizens of Newberg and vicinity by compelling them to pay a greater fare for transportation into the country and to other cities, for as soon as said license goes into effect prices will be raised in order to pay for same. And those who ride will pay the license and not those who run the jitney.

Further, as regards a bond, I wish to say that some have taken out insurance so that in case of accident to human beings or machines, the insurance company pays for same and not the one who carries the insurance, so they can go at break-neck speed and make time.

Those interested should speak to your councilmen before May 5. Thanking you for this space, I am Yours truly, E. A. Hall.
