When the United States entered the war against Germany and a call was made for the loan by private citizens of field glasses for use in the Navy, Ed Davis forwarded a pair at once, never expecting, he says, to see them again, but a few days ago they came back to him through the mail. They are still in a condition for use but they show that they have seen much service.

J. L. Haworth, who was in town Tuesday getting some material for a new residence which he is building just back of the store building at Springbrook on a tract he owns there, remarked that building material was more than double the price he had ever before paid when building. It is understood that Mr. Nichols intends to build a new residence on the opposite side of the road where he has a prune orchard and dryer.

On Tuesday afternoon of this week Mrs. Wesley Boyes entertained Chapter L, P. E. O. Sisterhood. After a short business session Mrs. R. P. Gill was initiated and welcomed into the Sisterhood. Mrs. Boyes' home was prettily decorated in spring flowers of yellow and white, the P. E. O. colors, and the same colors were used in the dainty lunch which she served. One of the most pleasing features of the very enjoyable afternoon, aside from the pleasure of making a P. E. O. of Mrs. Gill, was the music given by two little misses of four years. Little Mildred Boyes and Salira Lapp played the piano and sang most remarkably. Besides members of Chapter L, Mrs. Charles Lapp, of Portland, Mrs. U. S. Bryant and Mrs. Nelson Brouillette were guests.

Next to Conserving Life

protecting your eyes and saving your sight is the most needed and most wanted conservation. Many people at the age of 65 are unable to read, because their eyes, from misuse and strain, are worn OUT. The eye, soon after a person is 40 commences to lose its muscular power. Then is the time the eye begins to need help in reading, so later on in life, when the body is too weak to work, you can read and enjoy life. As soon as you realize the importance of conserving your sight as you conserve your life, the ruined eyes at 60 will be a thing of the past.
