MAC TENNIS TOURNAMENT

A second tennis tournament was played with McMinnville College last Friday afternoon on the Pacific court. The first match played was the men's singles. Lathrop representing McMinnville and Elliott, Pacific. McMinnville won the match by a 6-4 and 6-1 score.

Mary Pennington won the girls' singles for P. C. Three sets were played: 6-3, 6-3 and 6-4, the middle set going to Mac.

Elliott and Cook won the men's doubles for Pacific in a hard fought match. The first was a deuce set, 8-6; the second was 6-4. The mixed doubles were lost to Pacific after three hard fought sets, one of them going into a deuce set also.

The closing recital of the college school of music was held in Wood-Mar Hall on last Monday evening. A good audience attended and were well pleased with the appearances. All the voice pupils of Professor Hull sang and many of the piano

pupils played. Glenn Taylor closed the program with two beautiful pieces on the violin. This was the first appearance of many of the students, but it was very successful.

Plans are progressing for the biggest commencement yet. The week opens with tennis matches and the Alumni base ball game Monday. The academy graduation is Tuesday and the college commencement Wednesday.

Last Saturday a number of the students made an all day trip up the Columbia Highway. The day was not sunny but was clear, and the Highway is exceptionally beautiful this time of year. They went through to Bonneville and then stopped at most of the falls on the way back. Those who went along were Margaret Hodson, Anna Mills, Dora Dunbar, Effie Endicott, Sewell Newhouse, Leroy Frazier, Brooks Terrell and Harold Lee. They were chaperoned by Miss Sibyl Woodward and Mrs. Pearson.

INCREASED SPECIAL TAXES

Dear Sir—The following information of interest to your patrons is herewith sent you for such publication as you are able to give it.

The Revenue Act of 1918 provides increased special taxes upon brokers, pawn brokers, ship brokers, custom house brokers, theatres, public exhibitions, bowling alleys, and billiard and pool tables. It also provides special taxes upon the proprietors of shooting galleries, riding academies and for-hire cars. The term broker embraces commission merchants and commercial brokers as well as brokers in stocks and bonds.

These new and increased taxes are effective upon and after January 1, 1919, and the tax for the period January 1st, to June 30, 1919, was, by the law, required to be paid on or before March 25th. However, on account of the delay in preparing the regulations and the congestion in the various offices, the time for payment of taxes has been extended by the Commissioner of Internal Revenue to not later than May 31, 1919, after which date, he will be required to assess a penalty provided by law, amounting to 25 per cent of the tax.

The tax on motor boats used for pleasure and of not more than 500 tons, was increased by the same Act from \$5 to \$10 per annum, effective April 1, 1919, and all the owners of such boats are required to pay additional tax from April 1st to June 30th. This tax must also be paid by May 31st to avoid any penalty.

It is hoped that tax payers affected by these sections will make payment not later than May 31st so as to avoid the assertion of any penalties.

Respectfully,
Milton A. Miller,
Collector.

RIM O' THE WORLD CLIMBING RECORD MADE ON RED CROWN

When Charles Baile a few days ago drove his Peerless Eight over the famous Rim O' the World hill climbing course in record time he was using Red Crown gasoline. C. S. Stone, in his Essex who was second, also had Red Crown in his tank.

Unquestionably this course, which covers eight miles of grade ranging from five to eighteen per cent through the Waterman Canyon near San Bernardino, is one of the severest tests motor fuel can have anywhere in the country. There is hardly a straight stretch of road in the whole distance and the innumerable sharp curves and twists, combined with the grade, present difficulties which can only be overcome by a car using the best quality of gasoline.

This Rim O' the World Hill Climbing Contest is one of the few stock car events regularly held in California. That the two winning cars should both have used Red Crown is a tribute to the quality and steady power that it possesses in every day use.

The high quality of Red Crown was again demonstrated under the heavy strain of this hill climbing event. As a straight distilled, all refinery gasoline it has the full and complete chain of boiling points necessary for consistent performance. Low boiling points give easy starting, medium boiling points quick and smooth acceleration, and high boiling points give steady, dependable power and long mileage.

put it into the bottle and shake well. Allow it to remain a few minutes then shake again and rinse with cold water.

Few Fine Pearls Found.

New fine pearls are rarely found nowadays because the demand has been so great and the fisheries have been worked so continuously that the pearls are not given time to grow. If a fine pearl is bought, it is rarely one that has not been in the market for many years and passed from one dealer to another. Dealers today depend to a large extent upon purchases of pearls from collections of rajahs and princes in India and of old families in Europe. They declare that every time a large and really fine pearl appears in the market a hundred wealthy persons bid for it. Consequently the best pearls are beyond the reach of any but the wealthiest people.

Starting Something.

The household was comparatively quiet when the ten-year-old son looked up from the last page of a recent issue of the News and inquired of both parents sitting near: "What's funny about this here 'Abe Martin'?" "There's never anything 't' eat in a home where the wife is on an allowance," "The joke, my son," his father replied, "is that instead of spending the allowance for cats, the wife blows it in for clubs, clothes, candy and conventions." "No, son," said the mother, "the fact is that the allowance is not large enough to provide a hotel menu, though the men seem to think it is. And that is no joke, either."—Indianapolis News.

Start Education Early.

The street car was crowded, which wasn't unusual. A man carrying a baby boy pushed his way inside to a strap. The swinging piece of worn leather caught the baby's eye, and he reached for it, and missed. It swung again, and the baby caught it tightly. The crowd laughed, and was glad it had something to laugh about.

"That's it, son," said the father. "Might as well learn young. You'll have use for that if you stay around this town long."
