\$2.00 Per Year in Advance

THURSDAY, AUGUST 28, 1919.

With electing a president and taking the census there will be something doing throughout Uncle Sam's domain next year.

Yes, the aroma coming from the peach canning section of the family domicile is very much the same as it was in the days when you and I were young, Maggie.

If loganberry juice is to be made to answer with the old soaks it may be necessary to give the nose an outside application occasionally in order to keep up the old-time roseate hue.

What hath the enforced use of water as a beverage wrought. Even the upper waters of the Mississippi have gone on a "sympathetic strike." It being stated that the old Missouri can now be waded by youngsters at places where it was once navigable for steamers.

A motor truck load of well fatted Duroc or Poland China hogs comfortably bedded on straw and on their way to market, command about as much attention and respect these times as do a coach full of Pullman passengers attended by a colored gentleman in the regulation uniform.

A simple notice from the city council to property owners to cut dead grass and weeds about their premises has so little effect that many, who are jealous of the reputation of Newberg, would be glad to see the words "shall" and "must" added to the warning in a way to make it effectual.

The railroads are going to be generous to the old veterans of the Civil War by carrying them to the National G. A. R. Encampment to be held this year at Columbus, Ohio, at a rate of a cent a mile. J. L. Hoskins and two or three others, including W. H. Brooks, the drummer, are planning to go from Newberg.

With the regular weekly budget the Graphic is receiving both from the Republican and Democratic National Committees and with a weekly letter coming from Jonathan Bourne's headquarters in Washington, D. C., we hope to be able to score a fairly satisfactory batting average in the big political campaign that is coming on.

So far as we have noted from our exchanges, neither Senator Poinsett, of Washington, nor Senator Hiram Johnson, of California, are getting much favorable publicity from the flood of "description and and pedigree" literature that is coming this way, but of course their biographers will be able to say for them that they were "favorably mentioned for the presidency" at one time.

It is announced from Salem that the estate of the late H. L. Pittcock is checked up for an inheritance tax of \$238,238.98, but by paying in full in advance a discount of 5 per cent will be allowed, making a saving of \$11,911.04. And this is the estate of the man who left nothing for educational or charitable purposes, who did not remember in his will a single trusted employee, long in the service of the Oregonian Publishing Co., of which he was the head, and who tied up the estate to keep it from his children, all of whom are well along in years, for a term of twenty years. To our way of reckoning, men of the type of Simon Benson and John B. Yeon, who are giving their time and money in pioneer road building in Oregon are likely to be remembered long after the builder of the above named fortune has been forgotten.

GERMANY'S MORAL BANKRUPTCY—WHY

We are not haters of Germany, nor of any other people. We believe, however, that the heaviest penalty Germany must pay is the loss of the world's confidence in her

DRIVES WINNING RACES WITHOUT HANDS

Always a lover of horse flesh, Colby Turner of Wilmington, Ohio, did not let the loss of both hands when a boy, interfere with his aims and as a result he is today one of the most successful race drivers, despite his handicap. Turner drives his horses by winding the reins about the stumps of his arms as shown in the large picture. The small picture shows Turner behind his pacer, Big Frank D. 2:17 1-4. He developed the great little pacer, Little Frank D. 2:03 1-4. Turner

lost his hands 30 years ago when he fell in front of a mower, when left alone in the field by his father. He has "store hands" but seldom uses them. He helps care for his horses too.

moral character as a nation, says Our Dumb Animals. Whatever the future may disclose as to the real facts which have been responsible for this war, and as to the spirit which has determined its conduct on the part of Germany, the world of today has lost faith in the moral integrity of the nation. Does not the reason for this lie in the failure of Germany through half a century to teach her boys and girls, her young men and young women, the principles which are the fundamental elements of humane education—justice, good will, brotherliness, kindness, unselfishness? Just a fraction of the money expended in armaments spent in humane education in the schools of the world and this war could never have been. It is often said that the conquerors soon or late bow down and worship the gods of the conquered. Are the Allies in America, to repeat this paradox of history and forget the noble ideals she set before herself when she entered the war as the friend and servant of humanity?

ONE BIG UNION

Before the general strike that agitated Winnipeg and other Canadian cities in June, the people on this side of the water had not heard much about the "One Big Union," although the phrase is one that has for some time been on the lips of the radical labor leaders abroad, says the Youth's Companion.

Briefly, it expresses the conviction of those men that trade-unionism, as we know it in the United States, is a mistake; that all the industrial workers of the world, whatever their trade, should form a single body under a single form of discipline; and that this big union should not concern itself merely with conditions of work and rates of pay, but should be a militant force for the overthrow of the present social and economic organization.

In this country the movement is supported, first of all, by the I. W.

W.; it has some adherents in the American Federation of Labor as well, although the great majority of that organization, including all its principal officers, are untainted with the doctrine. It is, of course, radically socialistic, the creation of men who are readers and students rather than actual workmen—but not less likely on that account to capture the workingman's imagination. Its dogmas are the dogmas of Marx, amended to include the soviet system, through which the Russian Bolsheviks are working; the weapon on which it relies is the general strike; its aim is the social revolution.

To most Americans as to most Englishmen there is something fantastic and fanatical about the theories and arguments of Marx and Lenin, of Bakunin and Liebknecht. They seem to be the product of brains turned by the oppression that Germans and Russians and Hebrews have long suffered—likely to appeal to no really sane and reasonable men. But however that may be, we must make up our minds to reckon with them more in the future than in the past. They are in fashion just now with many who in ordinary times would never be allured by them. Among workingmen of foreign extraction they are especially popular. The revolutionists who believe in them will make determined effort to force the labor organizations all over the country to assent to them and to act upon them. We do not believe that that effort will succeed, but the danger is not therefore to be ignored.

NOW READY

FIRST PRINTING 40 CARLOADS

The largest edition ever published of any novel. The greatest story ever written by the most popular author.

Harold Bell Wright

This new Ozark story of life and love is sweet and appealing with pathos, and vibrant with the local color of the mystic enchanted Ozarks—The Shepherd of the Hills country.

THE RE-CREATION OF BRIAN KENT

Illustrations in Colors by St. John

The story is rich in philosophy, charming in description, and masterful in the character creations of Brian Kent, Auntie Sue, Judy and Betty Jo—they are actual living human beings. The dramatic action is thrilling and intense with the skillful visualization of the clash and conflicts of the invisible forces of life. The story is as clean and wholesome and invigorating as the pure atmosphere of the out-of-doors of God's unspoiled world of the Ozark hills.
