

A GOLDEN OPPORTUNITY

THE fellow who puts his money safely away in the bank now—and only spends what he actually has to—is going to make in PROFIT the difference between the buying power of his money today and that of normal times.

That is about 100 per cent, isn't it? Well, begin NOW by opening an account here at the U. S. National Bank.

Build It Now

Both labor and materials are available once more and a great deal of government building, state work and factory construction already is under way. Measure the satisfaction your new home would bring and you'll want it now.

The sensible thing then is to BUILD NOW and we have all the material to build the sensible way—framing, siding, trim, doors, shingles and Beaver Board—the manufactured lumber, knotless and crackless—for the walls and ceilings. Speak to us about it today.

longer satisfied to be merely entertained and that the frivolous pastimes which women were accustomed to in pre-war times are no longer popular. The war has taught people the value and happiness of service, hence I found no difficulty in securing chairmen in the various counties which I have visited; those already thus provided are: Clatsop, Washington, Hood River, Wasco, Sherman, Gilliam, Wheeler, Malheur, Baker, Umatilla, Morrow and Columbia. In some counties a prominent man or woman has been made a chairman and in others a civic organization or a woman's club has assumed the responsibility of organizing the county for the sale of the seals. The Association will offer a suggested program, which may or may not be followed, the chairman being left to his own devices in organizing his territory."

McADOO'S HALF-SOLED PANTALOONS

Champ Clark in a speech in Congress said: "We have a deficiency of \$3,500,000,000 staring us in the face this year. Where are we going to get the money? How are we going to pay it? While not a pleasant or cheerful subject, everybody is interested in economy. Innumerable big-wigs, male and female, are going over the country preaching thrift. The Hon. William Gibbs McAdoo, when he was secretary of the treasury, director general of the railroads, and so forth and so forth and so forth, in order to encourage thrift stated that he wore half-soled pantaloons. That was a very good example he set, but he did not have that kind on the day we met Pershing in New York."

Willard SERVICE STATION

The Job of Insulation

Ordinary insulation nearly always gives way before the plates do, and the battery has to be re-insulated.

Willard Threaded Rubber Insulation protects the plates from the very beginning of the battery's life, and protects the car owner against the need of having the battery re-insulated.

Drop in, and we'll tell you about some of the long-life records that Threaded Rubber Insulation has made possible.
