 Mr. and Mrs. Yokel, who came from Nebraska and spent several months with Mr. Asmus, have gone on to California. They are looking for a location and will be back in Oregon.

A CALL TO ARMS

There is no clearer thinker in the whole United States on matters that affect the farmer than Herbert W. Collingwood, editor of the Rural New Yorker. He is farm-born and farm-reared, and he is for and with the farmer every minute, and has been all his life.
 What he says is always worth while. We know him personally. We know him to be a big-hearted, whole-souled, practising Christian. If there were more like him we would have fewer churches, with a tremendous increase in practical Christian service.
 Mr. Collingwood has stated in excellent form, what we believe expresses the sentiment of every thinking Oregon farmer when he said:
 "The farmer should not side with either capital or organized labor in the present fight. Neither side has any particular love for the agriculturist. Each wants his power to help crush the other, while the farmer would not be benefited by the crushing of either side. He would be benefited by compelling both sides to be fair and reasonable in their relations. The present situation will lead to the destruction of industry unless labor and capital stop their present war of extermination.
 "The force of organized agriculture is the only power which can stop the present foolish and destructive conflict. Farmers should not take sides in this industrial battle. Let them (the farmers) organize down to every school district in the land and keep in the middle of the road. Keep their organizations as democratic as possible, and find leaders who can and will lead.
 "Do not go to either side of the present conflict as a servant or follower, but remain as master, and compel one side or the other to come to you."
 We say—Amen!
 Now is the time for the "farm-classes" to arouse itself. It is the greatest power for good (for realizing the "square deal" ideal) in the whole country. No thinker will deny it.
 As a class we constitute practically one-third of the population. What a wonderful power for good! Let us, then arouse ourselves! First let us clean house. We need to. Then, wherever we find anything foreign to the "square deal"—or the "live-and-let-live" attitude—let us boycott it, let us smash it, let us exterminate it.
 As a class, that is our great God-given mission, fellow farmers. We are all coming to feel it. It is God working in us. We must heed the call.
 Ours is the basic industry. We cannot be starved out. But we can

drive the "stinker" out of our own class. And we can starve him out of other classes. He is "as clay in our hands" did we but realize it.
 Fellow farmers—let us arouse!
 Oliver F. Kilham,
 Director Agriculture Department,
 Newberg High School.

Are Your Teeth in Bad Shape?

If you have a bad tooth, perhaps what you need is a gold crown to cover it. If some teeth are missing, they can be replaced by what is called bridgework, which means that new teeth are fastened in by attaching them to other natural teeth in your mouth. Or maybe you need artificial plates, which can be made so natural looking that it is not easy to tell them from real teeth.
 The best place to have this kind of dental work done is at an office where Registered Dentists use the E. R. Parker System, because these dentists make special arrangements with out-of-town patients, so that fewer visits are required and you don't have to call so often. Prices are always reasonable, and no charge is made for examinations and advice. There are twenty-four E. R. Parker System offices in different cities, the nearest being at
 PORTLAND, OREGON.

Ford
THE UNIVERSAL CAR

Sixteen Years Experience

For sixteen years, a corps of metallurgists have been studying and constantly perfecting the steel that goes into every part of the Ford car and the Ford One Ton Truck. Each separate part has been studied to learn the type of steel best fitted for it. Parts receiving constant surface-wear are made of hard, flint-like metal; parts subjected to great vibration or resilience are made of softer, springy steel. Every part is made according to its use—That is, every Genuine Ford part is.
 But there are also counterfeit "Ford" parts. These imitations are made by concerns in no way connected with the Ford Motor Company and retailed as sidelines by mail order houses, down town stores, and many garages. The unsuspecting customer accepts them because they are called "Ford" parts. To make sure of getting the genuine Ford made parts, buy them only from Authorized Ford Dealers. Likewise bring or take your Ford car to our garage for repairs, replacements, and general "tuning up."
 We are Authorized Ford Dealers. We can supply you with all Ford parts for either passenger car or truck. And our shop is equipped to give Ford service in all repair work.

Western Motor Co.
NEWBERG, OREGON

INSIST ON GENUINE FORD PARTS
