NOTHING is more indicative of the growth and prosperity of Newberg and vicinity than the increase of its bank deposits. The U. S. National Bank shared in that increase to an extent that has been most desirable, and we feel that our efforts to keep things moving have been amply rewarded.

You know it's the GROWING bank account which pays its owner. Is YOURS growing?

Don't forget that the valentine entertainment to be given at Community Hall on Saturday evening is to be a play time for all ages and sizes. The committee in charge is arranging a program of games and surprises and a good time is assured all who attend. No admission charged, but light refreshments will be sold.

The Dundee Woman's Club had one of its most delightful meetings on Thursday last. Mrs. Powell, the hostess, had decorated the library appropriately for the occasion and also had arranged a valentine contest which was enjoyed after the regular program. A short business meeting closed with the roll call to which every member responded either with a current event, a quotation, a poem, or a joke. The regular program opened with a reading of extracts from "Out of Many, One," from the Woman's Home Companion for February, by Mrs. Greer. A group of readings, "The Victoria Cross," "The Garden," and "Do It," by Miss Helen M. Hatch were greatly enjoyed. A game arranged from Dr. Frank Crane's article, "How Much Do You Know?" gave much amusement and revealed the most unexpected traits of reading, for instance, when one of the most dignified and serious members of the club was able to tell about Jack Dempsey and when all the housekeepers were stumped to tell exactly what part of the beef a porterhouse steak comes from. Mrs. Cyrene Palmer and Miss Margaret McWhinnie carried off the honors in the Bible contest. The hostess, assisted by Mrs. Bernhard Groth and Mrs. Paul Groth served delicious refreshments. The next meeting is to be devoted to the subject of "Woman" and an interesting program is promised.

## Thirst and Starvation!

The thing most likely to bring your battery to an untimely end is THIRST. The prevention is so easy no motorman should neglect it.

Look at your battery YOURSELF, once in two weeks, put distilled water in to fill one half inch above the plates.

The other great enemy of battery life is STARVATION, and is less understood by the average motorist.

To keep in good health, your battery must be supplied, by the generator, with electricity at all times, for lights, starter and ignition.

YOU CAN'T TAKE OUT MORE THAN YOU PUT IN OR YOU'LL HAVE A STARVED BATTERY.

Advise with us, it will cost you nothing for testing and distilled water. We make repairs promptly. A service battery for you while yours is being charged.
