Entered at the postoffice at Newberg, Oregon, as second class matter.

\$2.00 Per Year in Advance

THURSDAY, APRIL 8, 1920.

Mr. and Mrs. W. S. Allan, of Dundee, sent two sons to war and, happily, both returned without a scratch, but only recently the two younger sons have been taken by pneumonia, following attacks of influenza. How empty are spoken words at such times of grief, but we know that the sincere sympathy of all who know the Allan family goes out in their behalf.

A West Chehalis subscriber expresses concern at the rumor that attempts are being made to sell real estate out that way of Japanese buyers. Hood River has been agitated of late over the same perplexing question and there is little wonder at the concern of the subscriber if the rumor is correct. Japanese are not community builders after the fashion in the good old United States.

THE PAVING PROPOSITION

As may be seen by the legal notices appearing in the Graphic this week the paving program as outlined by the city council is up to the people most interested, namely, those who must pay the bills.

Numbers of property owners have been appealing to the Graphic, saying that while they are in favor of paving as fast as they can stand the pressure, they do not feel that they ought to be tied up to a paving proposition at this time at the present high prices.

We hear of some who have complained because the Graphic has not been boosting for the proposition. This does not worry the editor in the least. For the edification of this class it may be stated that the writer was boosting for and helping to pay for the building up of public schools and other institutions in which Newberg is interested long before some of these fellows were born. And, not in the spirit of boasting, but simply to show that the Graphic publisher has been doing a fair share, at least, in the way of making street improvement

we will state that we have been paying for paving 125 feet frontage on First street and in front of the same pieces of property have laid cement walks 12 feet in width. In the residence district we have laid 1,187 feet of cement walks, we have put in 390 feet of cement curbing, and have paid for grading and graveling in the same district 553 feet of street.

We are willing to do more if we can have a little breathing spell while conditions are getting around to normal again, but like many others we feel that at this time at present high prices the council should be cautious about heaping too big a burden on the people. In some instances the streets cited for paving are badly in need of work, while in some others where the streets are well graded and graveled we think it an injustice to insist that this work be tore up for laying paving at top prices.

Monday night, April 19th, is the time the council has set for hearing any remonstrances the property owners may have to present. The good book says that in a multitude of counselors there is safety, and no doubt there will be a goodly number of hand at that time.

CHEHALEM CENTER

Chas. Shires went to Portland Monday on business.

Carlos Johnson went to Portland Monday with some intention of taking up work at the Y. M. C. A. trade School.

Rev. Thomas Perisho, of Newberg, has been holding services at the church in the absence of the pastor, Rev. A. C. Martin.

Ernest Everest and wife were over from Vancouver Sunday visiting at the home of his parents, Mr. and Mrs. W. R. Everest.

Mrs. Maggie Shires is a great sufferer this winter with rheumatism but her friends hope she may soon recover the use of her limbs.

Mrs. Henry Potts and young son were visitors at the home of Mrs. G. A. Graves over Sunday. Mrs. Potts expects to go to Montana where her husband and sons are.

Mrs. Sturges and little son came out from Portland for a visit with her parents, Mr. and Mrs. McBride, who recently purchased the Henry Potts ranch formerly known as the Atkinson farm.

REX

Mrs. Frost is spending the week in Portland with relatives.

Mrs. James Kane and Mrs. F. L. Eves made a business trip to Portland Tuesday.

Mrs. Burton and daughter, June spent the week end with her mother, Mrs. Lewis.

Mr. and Mrs. Roberts and son spent Easter with her parents, the Woodworth's.

Mr. and Mrs. Reed Chambers, of Salem spent the week end with Mr. and Mrs. Frost.

Mr. and Mrs. Graham have been in Portland the past two weeks and both have been sick.

The McCaffrees have moved into the house the Smiths vacated, while the latter moved to the Quittenbaum house.

Mr. and Mrs. Kokel arrived from California Friday, where they spent the winter. They are glad to be here and will soon take possession of their new home which they purchased of Mr. Kane.

The ladies aid met at the home of Mrs. Woodworth last Thursday when a very enjoyable afternoon was spent. After the business meeting a comforter was knitted and made for Miss Fleda Kane who is soon to become the bride of Ross Wiley. Their future home will be in La Habra, California.

HOUSEHOLD HINTS

Add salt to the first water you wash spinach in and you will find it will not require so many washings as are usually needed.

When making plain raisin pudding use a finely grated carrot instead of an egg. It is just as good and much cheaper.

For sour stomach take a little soda in cold water.

Add a pinch of soda to beans when parboiling and they will soften much quicker.

Use newspapers to wipe greasy dishes. Makes a splendid fire lighter. Dry coffee grounds are useful for cleaning knives.

Mud spots that are left on a garment after it has been brushed can be removed with a cut raw potato.

Clean the sink with kerosene. Pour some down the sink spout. It cuts the grease.

Do not throw away the bacon rind. It adds a delicious flavor to vegetables, taking the place of butter. A piece of bacon rind added to the dish of string beans or cabbage makes a most appetizing vegetable.

In these days when economy is most essential a real saving is discovered in keeping every piece of twine that comes into the house, un-

til a ball large enough to knit into dish cloths, floor mops and even into dish cloths is formed.

When putting a hem in a garment if a piece of cardboard is cut the required width, it may be slipped along and the tack quickly and evenly accomplished, as it saves the constant handling of the tape measure, and there is no fear of the hem being uneven as the cardboard is rigid.

The hot boiled potatoes intended for codfish balls should be put through a potato ricer.

DOING THINGS BY WHOLESALE

Easy to See Many Advantages in New Methods Rapidly Being Brought to Perfection.

Heretofore we have bought medical service at retail. Now Glasgow is trying out a plan to sell medical service wholesale.

What Glasgow is striving to do is this: Divide the city in districts and provide free dispensaries and free doctors to all who need medical attention.

It is claimed that such a scheme will reduce the death rate, because many poor people now skip their families in the matter of health precautions. And the doctors like it, also. They work fewer hours and a standard pay is guaranteed.

Withal, the Glasgow plan of wholesale doctoring is said to be cheaper than our old-fashioned retail method. "Girard" writes in the Philadelphia Press.

American cities have made half a step toward such doctoring of the people in wholesale lots.

We have boards of health and health bureaus. They administer in a general way and they administer in wholesale doses.

An order goes out and it goes for all the people. It is economical and wise, as every one knows, during such an epidemic as the "flu" was last year.

Doctoring by wholesale saved millions of lives in that one calamity.

Uncle Sam did the insuring of his own soldiers by wholesale in the last war.

Public schools supply education in wholesale quantities.

Our spiritual wants are supplied in a fashion wholesale through the churches.

So wholesale doctoring is only another day's march in the general direction of a socialistic empire.

MAKES NEW USE OF ECHOES

Inventor's Idea May Do Away With the Old Practice Known as "Heaving the Lead."

An inventor in Oakland, Cal., has found a new and practical use for echoes, and as a result the time may come when the practice of "heaving the lead" at sea will be known only in historical novels and old maritime history. The marimeter, as the new device is called, sends a sound from the keel of the ship to the bottom of the sea; the sound comes back as an echo, and the journey, automatically recorded on a diaphragm, is translated into terms of length. The report shows the depth of water between keel and bottom, calculated from the known speed of the sound-wave in salt water, and the knowledge may be acquired at the rate of four soundings a minute, which is very much faster than by the older methods. The marimeter, to be sure, has only recently gone to sea. If indeed the steamer Governor, which will carry the first of them, has yet left dry dock in Seattle, Wash. But the instrument promises to add materially to the security of ocean traffic.

It is Mother's Birthday. How delighted she is when Daddy and the little girl give her a beautiful ring.

For she has wanted just this kind of Gem Set Ring for a long, long while. It will remain, long in her memory, as quite the sweetest and most thoughtful present she EVER received.

That it is a famous W.W.W. Ring makes it all the more acceptable. For it is guaranteed, the setting is very beautiful and the design of the latest.

Jewelry always makes the Gift Ideal. It is intrinsically value and there is the sentiment that will not die, for jewelry lives forever.

Come to this great Gift Shop and look over the many exquisite pieces that are just the thing for you to give to those you love.
