

Progress in Farming

NEITHER production nor producing methods have stood still. The progressive farmer looks upon his business as a science which requires constant study as well as manual labor.

Furthermore he realizes the advantages to be had from a connection with the U. S. National Bank where he is always sure of finding encouragement and co-operation.

How would YOU
like a raise
like this?

— and for
34 Years Work

THAT is the kind of increase in salary the minister has received. His living expenses have risen just as fast and as far as yours.

But he is paid on the average just 52 cents more per church member than he was paid 34 years ago.

The Minister Never Fails You

Every officer of the Government with a war message to deliver appealed to the ministers first of all.

But 80% of the ministers receive less income than government economists figure as a minimum for the support of an average family.

When hospitals need money they enlist the support of the ministers—and receive it.

But when sickness visits the minister or the members of his family they must be treated in a charity ward. His pay is less than a day laborer's.

8 out of every 10 ministers receive less than \$20 a week—about half the pay of a mechanic.

We Pay Him Half the Wages of a Mechanic

And of these pitifully inadequate salaries, how much do you contribute? Nothing if you are outside the church; an average of less than 3c a day if you are a church member.

All of us share in the benefits of Christian ministers to the community. They marry us; bury us; baptize our children; visit us when we are sick. In their hands is the spiritual training of the youth.

We Are All Profiteers at Their Expense

Part of the Interchurch World program is this—a living wage for every minister of Jesus Christ; an efficient plan, and a chance to do a big man's job.

If you want better preachers, help to pay the preachers better. It's the best investment for your community—and for your children—that you can ever make.

INTERCHURCH WORLD MOVEMENT

NORTH MAIN CLUB

The North Main Improvement Club met at the home of Mrs. J. Goff on April 8 at 2 o'clock.

Roll call was answered with current events. A short business meeting followed. A new secretary, also a treasurer were elected. Two new members were received.

The following program was given: Reading.....Mrs. Nye Reading and Discussion.....Mrs. Hulln Question.....Mrs. Jones Recitation.....Little Eleanor Davis Reading.....Mrs. Moffitt Dainty refreshments were served by the hostess.

The next meeting will be held at the home of Mrs. Moffitt, April 21.

PLEASANT VIEW

Miss Mae Jones has returned from a visit with relatives in Portland.

H. Schultz is having trouble finding someone to help him put in his crops.

Brazeo, Effinger, has returned from California with his bride. The young couple intend to make their home at the Far View farm.

H. J. Maynard, who recently bought the Baker place, has erected a large tank at the corner of his barn. He recently discovered a leak and has decided to return it to its previous owner.

Friends of Miss Violet Edwards met at her home last Saturday night in honor of her sixteenth birthday. The evening was spent in playing games and dancing. Refreshments were served at a late hour, after which the guests departed with happy hearts.

THE HIGH SCHOOL AGRICULTURE NOTES

Facts and figures worth remembering:

1. "There is no school subject from which more real knowledge may be gained of science, of art, of life's relations, than from dealing with living, growing plants."

2. "Children enlisted in home gardening under trained supervision, have in a little more than a year produced food stuffs valued at \$48,000,000."

3. "Probably there is no human vocation in which the child can so healthfully, pleasantly and willingly take his first lesson in helping to pull the family load as in tilling the soil."

4. "Optimistic advocates of the movement declare that within 20 years the whole tendency of the population to congregate in close quarters in cities will be altered and that every family will aim to have a separate habitation and a piece of ground large enough for at least recreational gardening."

5. "There can be no real poverty and distress in a community of efficient farmers."

7. Every citizen of Newberg of mature years will surely want to read the splendid article on present day economics written by a former fellow-townsmen the Hon. Herbert Hoover and published in the last issue of the Saturday Evening Post.

8. "Citizens in Oregon get more direct service from their state college than do the citizens of California, Idaho, Montana, Iowa, Wash-

ington, Kansas, Indiana and Michigan—and these are among the best served of the states in the Union."

9. We think of Iowa State College as one that does wonderfully well for its state citizenship. And it is a tremendous helper, yet O. A. C. has one student enrolled for every 205 population, while Iowa State has but one for every 618 population. Even a very poor figurer can readily see the "service status" of O. A. C.

10. Away back five years ago Oregon ranked fourth in the United States as regards the number of students enrolled in public institutions for every 100,000 population. Our aim should be to put Oregon in first place if possible. Certainly we must not backslide one jot or tittle.

11. A glance at a table (latest printed) of the county distribution of O. A. C. alumni readily shows the value of having a college close at hand. Benton county total is 330, as against Yamhill county 65.

12. This department is more than glad that we have the Pacific College in Newberg. It gives resident young people a splendid chance for a higher education at low cost. Many people who move to Newberg would not come at all if it were not for the college. A graduate of our department unable to go to O. A. C. certainly should in every instance go on and graduate from Pacific College. The college is perhaps, Newberg's biggest asset.

13. Dig up your Newberg Graphic for December 4, 1919, and again read the article, "Education Does Pay."

14. Every day of the four years spent studying in college is worth \$55.55, on the average, to a man before he dies. Is any merchant in town able to make the same money for four years daily with such a trifling capital investment?

15. The \$55.55 multiplied by 720, minus something like \$2,000 or \$2,500 (the latter the expense during four lean college years) would seem to us like a good investment.

16. Certainly, we would not dare shoulder the tremendous responsibility of failing to back up to the last inch everything educational—our only certain safeguard against rabid radicalism.

17. The art of living will never rise higher than the level of the man (or woman) who votes at the polls. Oliver F. Kilham, Director, Agriculture Department, Newberg High School.

Salmon Saved Queen.

The salmon with a ring in its mouth, that figures in the arms of the city of Glasgow, Scotland, which are also those of the ancient see, is said to record a miracle of St. Kentigern, the founder of the see, and the fourth bishop of Glasgow. A certain queen gave a soldier, with whom she had fallen in love, a ring that had been presented to her by her consort; but the king discovered the intrigue, and, having obtained the ring, threw it into the Clyde, and then demanded it of his disloyal lady.

In her alarm she sought help from St. Kentigern, and he, proceeding to the river, forthwith caught a salmon, which, on being opened, was found to have swallowed the all-important jewel. The queen regained the good graces of the king, and lived a better life afterward.

Be sure and read the Graphic every week.

There is
a chart for your car

Our Board of Lubrication Engineers has determined the correct consistency of Zerolene for your make of car. Its recommendations are available for you in the Zerolene Correct Lubrication Charts. Get one for your car at your dealer's or our nearest station. Use Zerolene for the Correct Lubrication of your automobile, truck or tractor.
