

French Coal Mining.

French coal miners, replying to the suggestion that they work more than eight hours a day declare that the only remedy is the improvement of mining machinery on American lines. They state that an American miner by using mechanical devices can dig out thirty tons of coal a week, while the French miner can get out but a tenth of this amount.

The Whole Secret of A Better Tire

Simply a Matter of the Maker's Policies

This you will realize—once you try a Brunswick—that a super-tire is possible only when the name certifies that the maker is following the highest standards.

For tire making is chiefly a matter of standards and policies—cost plus care. Any maker can build a good tire if he cares to pay perfection's price.

All men know Brunswick standards, for Brunswick products have been famous for 74 years.

Formulas, fabrics and standards vary vastly in cost. Reinforcements, plies and thickness are a matter of expense. And these variations affect endurance. It rests with the maker how far he wishes to go—how much he can afford to give.

For there are no secrets nor patents to hold one back.

To ascertain what each maker offers one must analyze and test some 200 tires—as our laboratories have done.

Then it is a matter of combining the best features and building according to the highest standards.

Once you try a Brunswick you will understand how we have built model tires, regardless of factory expense.

Yet Brunswick Tires cost you the same as other like-type tires. Our saving is on selling cost, through our nation-wide organization.

We realize that you expect more from Brunswicks, and we assure you that you get it. ONE Brunswick will tell you the story.

And then you'll want ALL Brunswicks. No other tire, you'll agree, gives so much for your money.

Notice To Planters

After finishing the digging and grading of our Italian and other prune trees, we find we have a few thousand nice 4-8 and some 3-4 foot Italian trees in excess of what we counted on. Are therefore able to book orders against this limited supply as long as they last. These trees are first class and were not injured by the hard freeze of December. To those needing Italian trees for Spring planting, we can only suggest prompt action—for certainly this limited number will not last long.

Logan Plants

Now is the time to arrange for your Logan Plant to insure getting them when you are ready to plant. The same is true of your strawberry plants, small fruits, fruit trees, etc. Place your order now and know you'll get the trees and plants at planting time.

Build before Planting Time

Before spring planting demands all your time, how about your farm buildings? How about granaries, sheds for machinery, barns? Are you prepared to take care of next fall's crops?

And repairing. Better get that out of the way now. Don't let a leaking roof keep you out of the field next summer.

We carry everything in lumber that you will need, including the handy, "ready to use" wall and ceiling material, Beaver Board. We will be glad to give you estimates on your building and repairing and also to help you plan the work. Phone or call us any time.
