Propaganda.
 A doughboy who had just returned from Coblentz was talking to a very estimable elderly woman—a straight-faced church member.
 "How did you like it up in Germany," she asked.
 "Oh, we got along very well with the Germans," and, with a big broad smile, he added, "and had all the good German beer that we wanted to drink."
 "More German propaganda," exclaimed the elderly woman.

The State University Agricultural College and the State Normal
 have for many years spent less money per student per year in training Oregon boys and girls than is spent at any other state institution. The present cost at the State University is \$203 a year; at the college, it is \$180. But even before the war, when money would buy twice as much as it buys now, the average cost at all other state institutions was \$325 a year. In addition.

Their Building Investment is also very low
 At the State University it is at present \$322 per student; at the College, \$300. But in state institutions elsewhere, statistics show the average to be \$995. These are convincing proofs of economical administration, but the three institutions can no longer give satisfactory training to the vast number of Oregon boys and girls (5400 full-time courses alone), unless they receive more support. On May 21 the Higher Educational relief measure will appear on the ballot. You are urged to preserve the quality of higher education by voting for it.
